This is the third edition of a monograph originally published 1960, an unusual fact in a time in which libraries are reduced in favour of digitized versions for online reading. What is so special about exactly this book? The answer is, of course, that Lord's *Singer of Tales* is a modern classic. Milman Parry's sensational research which combined careful, even pedantic, studies of the Homeric poems with fieldwork investigation of oral epic in Yugoslavia was known to scholars working with ...

Edited by Mary Louise Lord after the author's death, *The Singer Resumes the Tale* focuses on the performance of stories and poems within settings that range from ancient Greek palaces to Latvian villages. Lord expounds and develops his approach to oral literature in this book, responds systematically for the first time to criticisms of oral theory, and extends his methods to the analysis of lyric poems. He also considers the implications of the transitional text - a work made up of both oral and literary components. Elements of the oral tradition - the practice of storytelling in prose or verse, the art of composing and transmitting songs, the content of these texts, the kinds of songs composed, and the poetics of oral literature - are discussed in the light of several traditions, beginning in the ancient world, through the Middle Ages, to the present. Throughout, the central figure is always the singer. Homer, the Beowulf poet, women who perform lyric songs, tellers of folktales, singers of such ballads as "Barbara Allen," bards of the Balkans: all play prominent roles in Lord's book, as they have played central roles in the creation of this fundamental literature.

Discusses the oral tradition as a theory of literary composition and its applications to Homeric and medieval epic.

"A great book..." -- Choice "... a groundbreaking work of scholarship..." -- *Asian Folklore Studies* "This extremely fascinating study opens an important chapter in the ethnography of speech, brilliantly confirming the views advanced by Dell Hymes, Albert Lord and Richard Baumann." -- *The Journal of Indo-European Studies* Building on his work in *Traditional Oral Epic and Immanent Art*, John Foley dissolves the perceived barrier between "oral" and "written," creating a composite theory from oral-formulaic theory and the ethnography of speaking and ethnopoetics. "...a groundbreaking work of scholarship that clears the path for solving the perennial problem of the interpretation of oral-derived texts. The book will be of immense value to students of folklore and literature, and to those seriously interested in the interface of the two traditionally divided disciplines." -- *Asian Folklore Studies*

P'ansori, the traditional oral narrative of Korea, is sung by a highly trained soloist to the accompaniment of complex drumming. The singer both narrates the story and dramatizes all the characters, male and female. Performances require as long as six hours and make extraordinary vocal demands. In the first book-length treatment in English of this remarkable art form, Marshall R. Pihl traces the history of p'ansori from its roots in shamanism and folktales through its nineteenth-century heyday under highly acclaimed masters and discusses its evolution in the twentieth century. After examining the place of p'ansori in popular entertainment and its textual tradition, he analyzes the nature of texts in the repertoire and explains the vocal and rhythmic techniques required to perform them. Pihl's superb translation of the alternately touching and comic "Song of Shim Ch'ong"--the first annotated English translation of a full p'ansori performance text--illustrates the emotional range, narrative variety, and technical complexity of p'ansori literature. *The Korean Singer of Tales* will interest not only Korean specialists, but also students of comparative literature, folklore, anthropology, and music.

Drawing on his extensive fieldwork in living oral traditions, Albert Bates Lord here concentrates on the epic singers and their art as manifested in texts or performance.

In the world of Tremaris, magic is fading away. When Darrow with terrible stories of fear and hatred in the Outlands, Calwyn decides to act. This is a story of adventure and magic, set in an extraordinary land.

From its ancient incarnation as a song to recent translations in modern languages, Homeric epic remains an abiding source of inspiration for both scholars and artists that transcends temporal and linguistic boundaries. *The Cambridge Guide to Homer* examines the influence and meaning of Homeric poetry from its earliest form as ancient Greek song to its current status in world literature, presenting the information in a synthetic manner that allows the reader

to gain an understanding of the different strands of Homeric studies. The volume is structured around three main themes: Homeric Song and Text; the Homeric World, and Homer in the World. Each section starts with a series of 'macropedia' essays arranged thematically that are accompanied by shorter complementary 'micropedia' articles. The Cambridge Guide to Homer thus traces the many routes taken by Homeric epic in the ancient world and its continuing relevance in different periods and cultures.

Jay-Z is one of America's leading rappers and entrepreneurs, as well known for his music as for his business acumen. This text seeks to situate Jay-Z within his musical, intellectual and cultural context for educational study. Thirteen essays address such topics as Jay-Z's relevance to African-American oral history, socially responsible hip hop and upward mobility in the African-American community. By observing Jay-Z through the lens of cultural studies, this study assists the teacher, student, scholar, and fan in understanding how he became such a historically significant figure. Each essay includes a set of review questions meant to spark discussion in the classroom. Instructors considering this book for use in a course may request an examination copy [here](#).

In recent decades, the evidence for an oral epic tradition in ancient Greece has grown enormously along with our ever-increasing awareness of worldwide oral traditions. John Foley here examines the artistic implications that oral tradition holds for the understanding of the Iliad and Odyssey in order to establish a context for their original performance and modern-day reception. In *Homer's Traditional Art*, Foley addresses three crucially interlocking areas that lead us to a fuller appreciation of the Homeric poems. He first explores the reality of Homer as their actual author, examining historical and comparative evidence to propose that "Homer" is a legendary and anthropomorphic figure rather than a real-life author. He next presents the poetic tradition as a specialized and highly resonant language bristling with idiomatic implication. Finally, he looks at Homer's overall artistic achievement, showing that it is best evaluated via a poetics aimed specifically at works that emerge from oral tradition. Along the way, Foley offers new perspectives on such topics as characterization and personal interaction in the epics, the nature of Penelope's heroism, the implications of feasting and lament, and the problematic ending of the Odyssey. His comparative references to the South Slavic oral epic open up new vistas on Homer's language, narrative patterning, and identity. *Homer's Traditional Art* represents a disentangling of the interwoven strands of orality, textuality, and verbal art. It shows how we can learn to appreciate how Homer's art succeeds not in spite of the oral tradition in which it was composed but rather through its unique agency.

Provides entries on themes and motifs, individuals, characters and character types, national traditions, and genres of folk and fairy tales from around the world.
