In 2003, he was honored with the Sam Loyd Award, given by the Association for Games & Puzzles International to individuals who have been made a significant contribution to the world of mechanical puzzles. In this work, the reader will find some of the most ingenious puzzles ever created, organized in ten categories: Logic, matchstick, maze, algorithmic, combinatorial, digital, number, geometric, dissection, and others. Some of them could rivalry with those found at Mathematical Olympiads tests around the globe; others will work as powerful brain teasers for those with an interest in problem-solving. Math teachers, curious students of any age and even experienced mathematicians with a taste for the fun in science can find in this book unconventional paths to develop their problem-solving skills in a creative way.

KenKen can be described simply as sudoku with basic math. It's a fun, addictive, clever puzzle that's winning fans the world over. This gift edition includes 250 KenKen puzzles with "How to Solve" instructions along with an Introduction by puzzlemaster Shortz.

A Colombian mathematician and professor assembled these 80 brainteasers while living in Bogotá, forming a stimulating collection of word problems, puzzles involving chess pieces, sudoku-style challenges, other math-based diversions. Solutions.

This book is your passport to a whole world of adventure! Set off on an exhilarating race around the world, stopping off at the planet's most thrilling, vibrant cities to solve classic puzzles such as dot-to-dot and spot-the-difference. No matter where your next destination might be, you're guaranteed to make exciting new discoveries and learn fascinating facts! \* Find the missing items at a street market in Nairobi. \* Solve a maze inspired by the London Underground. \* Spot the odd one out at Tokyo's famous Shibuya crossing! This the perfect book for curious kids aged 7+, with an interest in other countries and foreign travel. Never leave home without it!

Put your wits—and survival instincts—to the test! Publisher’s Note: *Perilous Problems for Puzzle Lovers* was previously published in the UK under the title *So You Think You’ve Got Problems?* In *Perilous Problems for Puzzle Lovers*, Alex Bellos collects 125 of the world’s greatest stumpers—many dangerous to your person, and all dangerous to your pride. Brace yourself to wrestle with wordplay, grapple with geometry, and scramble for survival. For example . . . Ten lions and a sheep are in a pen. Any lion who eats the sheep will fall asleep. A sleeping lion will be eaten by another lion, who falls asleep in turn. If the lions are all perfect logicians, what happens? Bellos pairs his fiendish brainteasers with fascinating history, so you’ll meet Alcuin, Sam Loyd, and other puzzle masters of yore—in between deranged despots and wily jailers with an unaccountable taste for riddles. Will you make it out alive? And what about the sheep?
