Turkish War of Independence - Wikipedia

Why Turkeys Are Named After Turkey When the Spanish arrived in Mexico in the 16th century they encountered the already-domesticated common turkey, *Meleagris gallopavo*. They apparently liked the bird; turkeys were among the plunder they took back to Spain around 1519. By 1541, the birds had arrived in England.

How the Turkey Got Its Name - Merriam-Webster

Turkey attacks Kurds who battled ISIS with US ... - USA TODAY

Turkey announced it was attacking Syria, days after the White House said it was withdrawing U.S. forces that had fought with Kurds to defeat the Islamic State.

Turkey launches military operation in northeast Syria ... congress. Trump ' s Republican allies condemn president after ' sickening ' Turkish incursion . Lindsey Graham and Chris Van Hollen on Wednesday also released a bill targeting Turkey for sanctions.

"In this sequel to his acclaimed biography, Ataturk, Andrew Mango traces the republic's development since the death of its founder and bringing to life the Turkish people and their vibrant society. The Turks Today interprets the latest academic research for a broader audience, making this book the definitive work on modern Turkey."--BOOK JACKET.

A comprehensive and authoritative review of Turkey's potential successes and failures as part of the European Union.

Turkish society is frequently accused of having amnesia. It has been said that there is no social memory in Turkey before Mustafa Kemal Atatürk founded modern Turkey after World War I. Indeed, in 1923, the newly founded Turkish Republic committed to a modernist future by erasing the memory of its Ottoman past. Now, almost eighty years after the establishment of the republic, the grandchildren of the founders have a different relationship with history. New generations make every effort to remember, record, and

reconcile earlier periods. The multiple, personalized representations of the past that they have recovered allow contemporary Turkish citizens to create alternative identities for themselves and their communities. Unlike its futuristic and homogenizing character at the turn of the twentieth century, Turkish nationalism today uses memory to generate varied narratives for the nation and its minority groups. Contributors to this volume come from such diverse disciplines as anthropology, comparative literature, and sociology, but they share a common understanding of contemporary Turkey and how its different representations of the past have become metaphors through which individuals and groups define their cultural identity and political position. They explore the ways people challenge, reaffirm, or transform the concepts of history, nation, homeland, and “ Republic ” through acts of memory, effectively demonstrating that memory can be both the basis of cultural reproduction and a form of resistance.

This is the first time the continuity of Ottoman culture in contemporary Turkey is discussed by a group of well-known scholars of Ottoman-Turkish history and society. This is done through a series of research essays on Ottoman culture, its organizations, its modes of thought, and its identities (and their changes). Also, they point out the confused view of republican Turks towards their Ottoman past. The book should prove indispensable to any scholar or library specializing in Turkish, Ottoman, Islamic and Middle East studies.

Turkey is positioned to become the twenty-first centuryÆs first Muslim power. Based on a dynamic economy and

energetic foreign policy, Turkey's growing engagement with other countries has made it a key player in the newly emerging multidirectional world order. Turkey's trade patterns and societal interaction with other nations have broadened and deepened dramatically in the past decade, transforming Turkey from a Cold War outpost into a significant player internationally. Turkey's ascendance and the changes that have taken place under the leadership of Turkey's Muslim conservative government have prompted its policymakers to craft a new vision of their role in twenty-first-century society. This developing worldview animates Turkey's desire to sometimes take the lead with its co-religionists and occasionally challenge its partners in the West, while showing no inclination to become an irresponsible rising power. If it can consolidate liberal democracy at home, Turkey could also assume the role of serving as an example for the newly emerging governments brought about by the Arab Spring. The cornerstone of Turkey's rise has been the government's ability to foster stable political conditions for economic growth, alongside a foreign policy that balances Turkey's Muslim identity with its Western overlay, including its strong ties to the United States. Accordingly, policies that could tarnish Turkey's reputation as a bastion of stability risk undermining its position between Europe, the United States, and the Middle East. This realization has been the catalyst for Ankara's careful management of Eastern and Western desires and expectations. The result is a new Turkey: a twenty-first-century Muslim power that promotes stability without the confines of a regional, European rubric.

Turkey has leapt to international prominence as an economic and political powerhouse under its elected Muslim government, and is looked on by many as a model for other

Muslim countries in the wake of the Arab Spring. In this book, Jenny White reveals how Turkish national identity and the meanings of Islam and secularism have undergone radical changes in today's Turkey, and asks whether the Turkish model should be viewed as a success story or a cautionary tale. This provocative book traces how Muslim nationalists blur the line between the secular and the Islamic, supporting globalization and political liberalism, yet remaining mired in authoritarianism, intolerance, and cultural norms hostile to minorities and women. In a new afterword, White analyzes the latest political developments, particularly the mass protests surrounding Gezi Park, their impact on Turkish political culture, and what they mean for the future.

Explores the geography, history, government, economy, people, and culture of Turkey.

At first glance, Turkey may seem Westernized and entirely "modern"--but appearances can be misleading. It is above all a land of contrasts, a heady mixture of Oriental etiquette and ultramodern city life, deep-rooted religious faith and determined secularism, a fierce sense of national pride and openness to foreign ideas. The Turkish people are very much their own center of gravity, and for the unwary visitor there are pitfalls to avoid as well as great riches to be found. Culture Smart! Turkey is an invaluable guide to the intricate ins and outs of this culturally rich and complex society. This updated edition outlines the complex history of Anatolia, provides key insights into contemporary Turkish values and attitudes, describes important customs and traditions, and reveals what life is like for the Turks at home, at work, and at play. It also offers practical tips and information about what to expect and how to navigate different social situations. In

this unique mix of Islamic and European cultures, the Turks are extremely hospitable. If you show an interest in their culture and respect for their point of view, they will repay your effort many times over.

This edited collection analyzes the genesis, dynamics, and operations of different communication contexts in relation to digital transformations in Turkey. Akdenizli offers a multi-faceted and balanced discussion of the role and impact of communication technologies in a country with questionable and notorious freedom of expression violations.
