The idiom tilting at windmills is first seen in the English language in the 1640s as "...fight with the windmills..." The verb tilting was soon substituted for the word fight. The term is taken from the classic Spanish novel, Don Quixote by Miguel de Cervantes. In the novel, the main character becomes enamored with the idea of chivalry, and spends his time fighting with windmills that he imagines to be giants. Tilting is the medieval sport of jousting with a lance.

In seventeenth-century Valladolid, Spain's new capital, Miguel Cervantes is busy writing his comic masterpiece, Don Quixote, which is being issued in installments. It is quickly making him the most popular author in the country, when three potential disasters strike: Cervantes discovers that there is a real Don Quixote, just like the character he thought he'd invented; a jealous poet concocts a scheme involving one of the novel's other characters to make Cervantes a laughingstock; and Cervantes falls in love with a beautiful, widowed, but un-available duchess. Many duels, misunderstandings, politicking, and betrayals later, Don Quixote himself comes to Cervantes' rescue. This sparkling tale of crazed knights, thwarted love, and literary rivalry is set against the back-ground of a mighty empire suffering from a century of reckless wars and a ruling hierarchy stultified by patronage and ritual. Peopled with an engagingly idiosyncratic cast that ranges from a Machiavellian duke to a misanthropic poacher, this charming story is imbued with the spirit, verve, and humor of the great novel to which it pays playful tribute. Tilting at Windmills is a dazzling evocation of Cervantes' life and times, and a brilliant weave of fact, fiction, and farce.

Andy Miller is a sports atheist. The beautiful game, the roar of the crowd, winning, losing, taking part - these mean nothing to him. But at thirty he is worried. He thinks he's turning into a bit of a crank. So Andy decides that he must try to love sport - and just maybe it will love him back. He shivers for a season in the stands at QPR, braves the queues at Wimbledon, stays (reasonably) sober at the Boat Race, gets his money's worth at a WWF event. But to really show his commitment, he takes up the one sport now dear to his heart - crazy golf. Dreaming of putting glory, he heads for Europe and the International circuit. No one can accuse him of being a crank now . . .

This lyrical debut novel celebrates the joys and tears of love lost and found, and of a life renewed--in a most unexpected place. . . . At thirty-four, Brian Duncan has it all. A trendy Manhattan life, a high-powered PR job, and a gorgeous fiancée with an exciting future of her own. Then, in a single moment of deception, Brian's world crumbles. Bitterly betrayed, he decides to toss away all he has worked for. Irresistibly drawn to the road, he leaves the city's busy streets behind. . . . On a hillside along New York's Hudson River Valley, Brian is transfixed by the beauty of an enormous windmill. Running toward it is a lovely little girl and her alluring mother, Annie Sullivan, who owns the windmill. The two strike a chord in Brian's heart and soon he discovers the small-town charms of Linden Corners--and of Annie, whose elusive quality matches his own questions about life. And as their relationship deepens into passion, through the force of nature and the hand of fate, Brian will learn that love comes in unexpected ways. Pittman's debut novel is a feel-good fantasy. . . . a nice feel for pace and place."--Publishers Weekly

Mark had never thought of retiring. Barristers don't retire. However, his 64th birthday was fast approaching. 'When I'm 64' and all that, and, beneath the wig and gown, he had always had a desire to write. Time was running out. It's now or never. He - rather he and his wife, Helen - decided they would take a year out. Like their children had, only later. They quickly ruled out the West of Ireland and the Wild Atlantic Way. For obvious reasons. And opted instead for a pueblo blanco in Andalucía. Mark could write his bestseller there. A white-washed house in a white-washed village in the mountains of Andalucía. What more could an aspiring author want? He lost no time in getting down to it. A writing room without a view and a typewriter. And no interruptions. Everything went splendidly for a day or two, when fate intervened. Followed by weeks of slow progress while he negotiated surgery and the intricacies of plot. In May, Mark carried out a quarterly review. Radical changes were called for and implemented. Ruthlessly. Beginning with telling Helen he couldn't come home for her birthday. Summer came and went, and so did Helen. Deadlines loomed. Would Mark do it? Would he achieve his New Year's resolution: One Year, One Novel? From the author of the Dermot McNamara series, An Eye on the Whiplash, Brief Cases and A Night at the Inns, comes a hilarious new novel which will ring familiar to anyone who has ever thought there is a book within them.

Claire Lance is on the run. The FBI believes Lance is a cop gone bad and is responsible for the brutal murder of her lover. Special Agent Faye Mallory carries a personal vendetta against her and will do anything to catch her. For the past year, Lance has been on the move, keeping her head down and keeping out of trouble - until she reaches a tiny town in Texas. Trouble finally corners her when Lance is forced to take action to save another woman's life. Suddenly, she finds herself in over her head, blood on her hands, and on the run with the woman she is protecting. Can Lance survive being forced to revisit the life she thought she had left behind and to reopen old wounds?

This book investigates spatial institutional variation and its influence on entrepreneurial activity in the Russian Federation, building on an innovative geometric clustering approach. The book looks into how entrepreneurial entry can be explained by institutional factors at the regional level. Furthermore, it examines the relevance of understanding entrepreneurial ecosystems as systems of interrelated elements whose overall function may be impeded by individual components. Most importantly, substantial evidence is presented that higher levels of regional democratization and the liberties that come with them are essential prerequisites for higher rates of entrepreneurial entry and innovation in Russia. The author draws on a comprehensive panel dataset and an unconventional prediction model approach to account for the interrelatedness of institutions with regard to their effects on entrepreneurship. The heterogeneous transition context of the Russian Federation, which continues to have one of the lowest shares of innovative founders, provides an ideal setting for investigating the tedious efforts to tilt at the windmills of transition. Accordingly, the book is a must-read for researchers, scholars, practitioners and policymakers seeking a better understanding of spatial economics, entrepreneurship, economic development, transition economics, public administration and political studies.--

An editor and writer's vivaciously entertaining, and often moving, chronicle of his year-long adventure with fifty great books (and two not-so-great ones)—a true story about reading that reminds us why we should all make time in our lives for books. Nearing his fortieth birthday, author and critic Andy Miller realized he's not nearly as well read as he'd like to be. A devout book lover who somehow fell out of the habit of reading, he began to ponder the power of books to change an individual life—including his own—and to the define the sort of person he would like to be. Beginning with a copy of Bulgakov's Master and Margarita that he happens to find one day in a bookstore, he embarks on a literary odyssey of mindful reading and wry introspection. From Middlemarch to Anna Karenina to A Confederacy of Dunces, these are books Miller felt he should read; books he'd always wanted to read; books he'd previously started but hadn't finished; and books he'd lied about having read to impress people. Combining memoir and literary criticism, The Year of Reading Dangerously is Miller's heartfelt, humorous, and honest examination of what it means to be a reader. Passionately believing that books deserve to be read, enjoyed, and debated in the real world, Miller documents his reading experiences and how they resonated in his daily life and ultimately his very sense of self. The result is a witty and insightful journey of discovery and soul-searching that celebrates the abiding miracle of the book and the power of reading.
