Passionately in love, Clare and Henry vow to hold onto each other and their marriage as they struggle with the effects of Chrono-Displacement Disorder, a condition that casts Henry involuntarily into the world of time travel.

A most untraditional love story, this is the celebrated tale of Henry DeTamble, a dashing, adventuresome librarian who inadvertently travels through time, and Clare Abshire, an artist whose life takes a natural sequential course. Henry and Clare's passionate affair endures across a sea of time and captures them in an impossibly romantic trap that tests the strength of fate and basks in the bonds of love.

"Niffenegger's inventive and poignant writing is well worth a trip" (Entertainment Weekly).

This limited edition volume includes art work painted by the author. This is the story of Henry DeTamble, a dashing, adventuresome librarian who travels involuntarily through time, and falls in love with Clare Abshire, an artist whose life takes a natural sequential course.

Another brilliant, original and moving novel from the author of *The Time Traveler's Wife*. Julia and Valentina Poole are normal American teenagers — normal, at least, for identical "mirror" twins who have no interest in college or jobs or possibly anything outside their cozy suburban home. But everything changes when they receive notice that an aunt whom they didn't know existed has died and left them her amazing flat in a building by Highgate Cemetery in London.

They feel that at last their own lives can begin ... but they have no idea that they've been summoned into a tangle of fraying lives, from the OCD-suffering crossword setter who lives above them to their aunt's mysterious and elusive lover who lives below them, and even to their aunt herself, who never got over her estrangement from the mother of the girls — her own twin — and who can't even seem to quite leave her flat....

A startling and evocative novel, harkening to both *One Day* and *Gravity*, a man and a woman revisit memories of their love affair on a utopian Earth while they are trapped in the vast void of space with only ninety minutes of oxygen left. After the catastrophic destruction of the Middle East and the United States, Europe has become a utopia and, every three years, the European population must rotate into different multicultural communities, living as individuals responsible for their own actions. While living in this paradise, Max meets Carys and immediately feels a spark of attraction. He quickly realizes, however, that Carys is someone he might want to stay with long-term, which is impossible in this new world. As their relationship plays out, the connections between their time on Earth and their present dilemma in space become clear. When their air ticks dangerously low, one is offered the chance of salvation—but who will take it? An original and daring exploration of the impact of first love and how the choices we make can change the fate of everyone around us, this is an unforgettable read.

And there are the Sacred Caves that Ayla's mentor takes her to see. They are filled with remarkable paintings of mammoths, lions, and bears, and their mystical aura at times overwhelms Ayla. But all the time Ayla has spent in training rituals has caused Jondalar to drift away from her. The rituals themselves bring her close to death, but through them Ayla gains A Gift of Knowledge so important that it will change her world. **BONUS:** This edition contains a reading guide and an interview with Jean M. Auel. Sixth in the acclaimed Earth's Children® series.
