Toads and Diamonds by Heather Tomlinson

Tomlinson is a master craftsman, and as in her highly regarded *The Swan Maiden* (2007), she creates a vivid setting. Lavish details starkly contrast the two girls' lives and personalities while emphasizing their strength, purpose, and enduring love for each other, despite their predicaments." -- Booklist (starred review)

Vastly different from Charles Perrault's *The Fairies*, in my opinion, *Toads and Diamonds* by Heather Tomlinson is a much-better version of the tale. For those not familiar with the original, two step-sisters encounter a disguised fairy on separate occasions.

Diribani has come to the village well to get water for her family's scant meal of curry and rice. She never expected to meet a goddess there. Yet she is granted a remarkable gift: Flowers and precious jewels drop from her lips whenever she speaks. It seems only right to Tana that the goddess judged her kind, lovely stepsister worthy of such riches. And when she encounters the goddess, she is not surprised to find herself speaking snakes and toads as a reward. Blessings and curses are never so clear as they might seem, however. Diribani's newfound wealth brings her a prince—and an attempt on her life. Tana is chased out of the village because the province's governor fears snakes, yet thousands are dying of a plague spread by rats. As the sisters' fates hang in the balance, each struggles to understand her gift. Will it bring her wisdom, good fortune, love . . . or death? *Toads and Diamonds* is a 2011 Bank Street - Best Children's Book of the Year.

Raised as a chatelaine-in-training unlike her sisters who are learning the arts of sorcery, Doucette discovers when she is sixteen years old that she too has magic in her blood, and she must brave her mother's wrath--and the loss of the man she loves--in order to follow her birthright.

Now in mass-market paperback-- the] elegantly sensual retelling of *Beauty and the Beast*, told from the Beast's point of view.--School Library Journal, starred review.

Once upon a time, three children and a little river dragon were the best of friends—until a promise was broken. Now they are almost grown up and barely speaking to one another. With her country in turmoil, Aurelie is sent on a peacekeeping mission. But how can she prevent a war when she can't even make her friends get along? Heartsick at losing her dearest companions, especially the handsome Garin, Aurelie finds comfort in her secret, late-night trips to fairyland. But a princess can't hide from her duties forever. Her country needs her, and so do her friends—whether they know it or not. Aurelie is a 2009 Bank Street - Best Children's Book of the Year.

Our fates lie in our genes and not in the stars, said James Watson, co-discoverer of the structure of DNA. But Watson could not have predicted the scale of the industry now dedicated to this new frontier. Since the launch of the multibillion-dollar Human Genome Project, the biosciences have promised miraculous cures and radical new ways of understanding who we are. But where is the new world we were promised? Now updated with a new afterword, *Genes, Cells and Brains* asks why the promised cornucopia of health benefits has failed to emerge and reveals the questionable enterprise that has grown out of bioethics. The authors, feminist sociologist Hilary Rose and neuroscientist Steven Rose, examine the establishment of biobanks, the rivalries between public and private gene sequencers, and the rise of stem cell research. The human body is becoming a commodity, and the unfulfilled promises of the science behind this revolution suggest profound failings in genomics itself.

Something—some power—is blooming inside Laurel. She can use flowers to do things. Like bringing back lost memories. Or helping her friends ace tests. Or making people fall in love. Laurel suspects her newfound ability has something to do with an ancient family secret, one that her mother meant to share with Laurel when the time was right. But then time ran out. Clues and signs and secret messages seem to be all around Laurel at Avondale School, where her mother had also boarded as a student. Can Laurel piece everything together quickly enough to control her power, which is growing more potent every day? Or will she set the stage for the most lovestruck, infamous prom in the history of the school?
