Learn the life and business lessons of: Steve Jobs, Richard Branson, Tony Robbins, Warren Buffett, Bill Gates, Arnold Schwarzenegger, Elon Musk, Donald Trump Oprah Winfrey and Mark Zuckerberg What if you could sit down to dine with some of the world's most successful entrepreneurs and have a conversation with them? What would you ask them? What business ideas and life lessons would they give to you? Of course, it was not possible to deliver any one of these rock star entrepreneurs to your dinner table- no matter who was doing the cooking or what you were serving. But I could be your ambassador, and I will present you in my book - 10 of the world's greatest living visionaries of our time, people who have truly changed the way we live and think, the way we work and play, the way we now see the world itself. Some might even be controversial and present us with some bad examples. The book includes a collection of 10 books. Each book has 50 Life and Business lessons from a very famous and successful person. One thing I've learned over the years of being an entrepreneur is that if you don't have passion for the business you are doing, then the probability of not making it is very high. I'm here to fuel that passion by giving you some great ideas you can depend on. The goal is to get the reader motivated and inspired to take action and succeed in life. I was really inspired to start working for myself and be my own boss when I read Richard Branson's biography, and the one on Steve Jobs really made me want to be the best at what I do, but reading these long books more than 500 pages each, is really time consuming, so I put the most important information about each person into a short and digestible form so that you can get the most value from the book in the shortest period of time. In summary, you will learn the most important things about each person; they will get you motivated, and they will save your time!

Business Model Generation is a handbook for visionaries, game changers, and challengers striving to defy outmoded business models and design tomorrow's enterprises. If your organization needs to adapt to harsh new realities, but you don't yet have a strategy that will get you out in front of your competitors, you need Business Model Generation. Co-created by 470 "Business Model Canvas" practitioners from 45 countries, the book features a beautiful, highly visual, 4-color design that takes powerful strategic ideas and tools, and makes them easy to implement in your organization. It explains the most common Business Model patterns, based on concepts from leading business thinkers, and helps you reinterpret them for your own context. You will learn how to systematically understand, design, and implement a game-changing business model--or analyze and renovate an old one. Along the way, you'll understand at a much deeper level your customers, distribution channels, partners, revenue streams, costs, and your core value proposition. Business Model Generation features practical innovation techniques used today by leading consultants and companies worldwide, including 3M, Ericsson, Capgemini, Deloitte, and others. Designed for doers, it is for those ready to abandon outmoded thinking and embrace new models of value creation: for executives, consultants, entrepreneurs, and leaders of all organizations. If you're ready to change the rules, you belong to "the business model generation!"

"This is not a book about charismatic visionary leaders. It is not about visionary product concepts or visionary products or visionary market insights. Nor is it about just having a corporate vision. This is a book about something far more important, enduring, and substantial. This is a book about visionary companies." So write Jim Collins and Jerry Porras in this groundbreaking book that shatters myths, provides new insights, and gives practical guidance to those who would like to build landmark companies that stand the test of time. Drawing upon a six-year research project at the Stanford University Graduate School of Business, Collins and Porras took eighteen truly exceptional and long-lasting companies -- they have an average age of nearly one hundred years and have outperformed the general stock market by a factor of fifteen since 1926 -- and studied each company in direct comparison to one of its top competitors. They examined the companies from their very beginnings to the present day -- as start-ups, as midsize companies, and as large corporations. Throughout, the authors asked: "What makes the truly exceptional companies different from other companies?" What separates General Electric, 3M, Merck, Wal-Mart, Hewlett-Packard, Walt Disney, and Philip Morris from their rivals? How, for example, did Procter & Gamble, which began life substantially behind rival Colgate, eventually prevail as the premier institution in its industry? How was Motorola able to move from a humble battery repair business into integrated circuits and cellular communications, while Zenith never became dominant in anything other than TVs? How did Boeing unseat McDonnell Douglas as the world's best commercial aircraft company -- what did Boeing have that McDonnell Douglas lacked? By answering such questions, Collins and Porras go beyond the incessant barrage of management buzzwords and fads of the day to discover timeless qualities that have consistently distinguished out-standing companies. They also provide inspiration to all executives and entrepreneurs by destroying the false but widely accepted idea that only charismatic visionary leaders can build visionary companies. Filled with hundreds of specific examples and organized into a coherent framework of practical concepts that can be applied by managers and entrepreneurs at all levels, Built to Last provides a master blueprint for building organizations that will prosper long into the twenty-first century and beyond.

The #1 New York Times bestselling biography of how Steve Jobs became the most visionary CEO in history. *Becoming Steve Jobs* breaks down the conventional, one-dimensional view of Steve Jobs that he was half-genius, half-jerk from youth, an irascible and selfish leader who slighted friends and family alike. *Becoming Steve Jobs* answers the central question about the life and career of the Apple cofounder and CEO: How did a young man so reckless and arrogant that he was exiled from the company he founded become the most effective visionary business leader of our time, ultimately transforming the daily life of billions of people? Drawing on incredible and sometimes exclusive access, Schlender and Tetzeli tell a different story of a real human being who wrestled with his failings and learned to maximize his strengths over time. Their rich, compelling narrative is filled with stories never told before from the people who knew Jobs best, including his family, former inner circle executives, and top people at Apple, Pixar and Disney, most notably Tim Cook, Jony Ive, Eddy Cue, Ed Catmull, John Lasseter, Robert Iger and many others. In addition, Schlender knew Jobs personally for 25 years and draws upon his many interviews with him, on and off the record, in writing the book. He and Tetzeli humanize the man and explain, rather than simply describe, his behavior. Along the way, the book provides rich context about the technology revolution we've all lived through, and the ways in which Jobs changed our world. A rich and revealing account, *Becoming Steve Jobs* shows us how one of the most colorful and compelling figures of our times was able to combine his unchanging, relentless passion with an evolution in management style to create one of the most valuable and beloved companies on the planet.

VISIONARIES ARE THE KEY TO MAKING OUR WORLD A BETTER PLACE! This book will guide you to a life of meaning, contribution, vision and purpose.

A Finalist for the PEN/Bograd Weld Prize for Biography Four influential women we thought we knew well—Jane Jacobs, Rachel Carson, Jane Goodall, and Alice Waters—and how they spearheaded the modern progressive movement This is the story of four visionaries who profoundly shaped the world we live in today. Together, these women—linked not by friendship or field, but by their choice to break with convention—showed what one person speaking truth to power can do. Jane Jacobs fought for livable cities and strong communities; Rachel Carson warned us about poisoning the environment; Jane Goodall demonstrated the indelible kinship between humans and animals; and Alice Waters urged us to reconsider what and how we eat. With a keen eye for historical detail, Andrea Barnet traces the arc of each woman's career and explores how their work collectively changed the course of history. While they hailed from different generations, Carson, Jacobs, Goodall, and Waters found their voices in the early sixties. At a time of enormous upheaval, all four stood as bulwarks against 1950s corporate culture and its war on nature. Consummate outsiders, each prevailed against powerful and mostly male adversaries while also anticipating the disaffections of the emerging counterculture. All told, their efforts ignited a transformative progressive movement while offering people a new way to think about the world and a more positive way of living in it.

Finding the courage to embrace change and take chances is the only way to succeed. Business, culture, and competitive landscapes have fundamentally changed, but basic principles and best practices for succeeding and future-proofing both yourself and your organization haven't. With a mix of compelling stories, research from the social sciences and psychology, and real-world insights, *Make Change Work for You* shows readers how to reignite their career, rekindle their creativity, and fearlessly innovate their way to success by providing the tools needed to master uncertainty and conquer every challenge they'll face in life or business. *Make Change Work for You* opens with an overview of the most common factors that lead to self-defeating behaviors, including fear of failure, embarrassment, underperformance, rejection, confrontation, isolation, and change itself. Using a simple four-part model, Steinberg guides readers to understand and better respond to the challenges that change can bring: Focus: Define the problem and come to understand it objectively. Engage: Interact with the challenge and try a range of solutions. Assess: Review the response(s) generated by your tactics. React: Adjust your strategy accordingly. And, finally, the book shows readers how to develop the vital personal and professional skills required to triumph in the "new normal" by understanding and engaging in the 10 new habits that highly successful people share: 1. Play the Odds 2. Embrace Tomorrow Today 3. Seek Constant Motion 4. Lead, Don't Follow 5. Never Stop Learning 6. Create Competitive Advantage 7. Connect the Dots 8. Pick Your Battles 9. Set and Align Your Priorities 10. Always Create Value
