“Straight up, parent tested, and funny to boot, Jamie gives you all the information you need.” –Amber Dusick, author of Parenting: Illustrated with Crappy Pictures A proven six-step plan to help you toilet train your preschooler quickly and successfully, from potty-training expert, Pied Piper of Poop, and social worker Jamie Glowacki. Worried about potty training? Let Jamie Glowacki, potty-training expert, show you how it’s done. Her 6-step, proven process to get your toddler out of diapers and onto the toilet has already worked for tens of thousands of kids and their parents. Here’s the good news: your child is probably ready to be potty trained EARLIER than you think (ideally, between 20-30 months), and it can be done FASTER than you expect (most kids get the basics in a few days—but Jamie’s got you covered even if it takes a little longer). If you’ve ever said to yourself: ** How do I know if my kid is ready? ** Why won’t my child poop in the potty? ** How do I avoid “potty power struggles”? ** How can I get their daycare provider on board? ** My kid was doing so well—why is he regressing? ** And what about nighttime?! Oh Crap! Potty Training can solve all of these (and other) common issues. This isn’t theory, you’re not bribing with candy, and there are no gimmicks. This is real-world, from-the-trenches potty training information—all the questions and all the ANSWERS you need to do it once and be done with diapers for good.

3 Day Potty Training is a fun and easy-to-follow guide for potty training even the most stubborn child just 3 days. Not just for pee and poop but for day and night too! If the parent is having to do all the work, then the child isn’t truly trained, but with Lora’s method your child will learn when their body is telling them that they need to use the potty and they will communicate that need to you.
