The fact that Agnes Jacobs, a half-breed North American Mohawk Indian, aspired to greatness and succeeded, for a time, is a story worth telling. A liberated women way before the term became fashionable, at seventeen, she cohabited with a young, full-blooded Mohawk, who in her opinion showed no gumption. She took off to make her fortune at

the St. George Hotel in Ottawa, Ontario. She returned to her village and opened up the busiest, little speakeasy on the New York State and Canada border...at the height of the Prohibition Era. There she met a man worthy of her admiration-a state trooper who came to raid her speakeasy. She dared to show her feminine side, only to lose him to her youngest daughter Mary. Mary, needy for her mother's affections, endured her mother's wrath. Despondent over losing her two little girls to scarlet fever and pneumonia, she gave up and joined her two precious angels. She left her youngest, Eostenuni, age three, for her mother, Agnes, to bring up.

This book explores how the EU ' s enforcement of competition law has

moved from centralisation to decentralisation over the years, with the National Competition Authorities embracing more enforcement powers. At the same time, harmonisation has been employed as a solution to ensure that the enforcement of EU competition rules is not weakened and the internal market remains a level playing field. While employing a comparative law argument, the book, accordingly, analyses the need for harmonisation throughout the different stages of development of the EU ' s competition law enforcement (save Merger control and State Aid), the underlying rationale, and the extent to which comparative studies have been undertaken to facilitate the harmonisation process from an historical perspective. It also covers

the Directives, such as the Antitrust Damages Directive and the ECN+ Directive. Investigating both public and private enforcement, it also examines the travaux préparatoires for the enforcement legislation in order to discover the drafters' intent. The book addresses the European and the Member States' perspectives, namely, the Central and Eastern European (CEE) countries, as harmonisation proceeds through dialogue and cooperation between the two levels. Lastly, it explores the extent to which harmonisation of the competition law enforcement framework has been accepted and implemented in the Member States' legal systems, or has led to the fragmentation of the national systems of the CEE countries.

Gibbons are anthropoidal primates. Monogamous, they fiercely defend the territory they need, and perhaps this is the only thing which is truly necessary for them to live freely. Hunted by poachers to be resold as pets, driven out by deforestation in order to develop industrial crops, their extinction is drawing near. Yet, gibbons are beings apart which generate our curiosity, together with the desire to know and understand them. These outstanding acrobats do not try to seduce, yet they seduce thanks to their graceful movements, the depth of their singing, as well as their natural discretion. They are great apes in all their splendour... This book describes these great apes and reviews our ethnocentrism. Animals are sentient beings just like humans...

Animal flesh consumed as food is labelled 'meat'; it refers mainly to skeletal muscle and associated fat, but it may also refer to organs. As it has a high water and protein content, and contains other water-soluble constituents, it makes a suitable medium for growth of microorganisms. The animal itself, environment, and processing condition all have a bearing on the diversity of microflora of these products.

Charles Williams (1886–1945), the friend of T. S. Eliot, C. S. Lewis, and J. R. R. Tolkien, was both a writer with many gifts and a religious thinker of an unusual kind. Poet, playwright, novelist, biographer, critic, and theologian, in each capacity he displayed a distinctive and highly

imaginative cast of mind. Here, in the first full-length study to appear for over twenty years, Glen Cavaliero discusses Williams's work in its entirety and pays particular attention to the manner in which his theological ideas were shaped and furthered by his various literary achievements. Following a brief account of Williams's life, the author examines the early poems, the criticism, biographies and plays, the novels, the Arthurian poems, and the assessment of Charles Williams's literary and theological importance. The book also illuminates the relationship between religious belief and the scope and working of the poetic mind. The discussion of Williams's place in twentieth-century literary history as a writer of fantasy literature, and of his unique gifts as a

Alexia Tarabotti is laboring under a great many social tribulations. First, she has no soul. Second, she's a spinster whose father is both Italian and dead. Third, she was rudely attacked by a vampire, breaking all standards of social etiquette. Where to go from there? From bad to worse apparently, for Alexia accidentally kills the vampire -- and then the

appalling Lord Maccon (loud, messy, gorgeous, and werewolf) is sent by Queen Victoria to investigate. With unexpected vampires appearing and expected vampires disappearing, everyone seems to believe Alexia responsible. Can she figure out what is actually happening to London's high society? Will her soulless ability to negate supernatural powers prove useful or just plain embarrassing? Finally, who is the real enemy, and do they have treacle tart? SOULLESS is the first book of the Parasol Protectorate series: a comedy of manners set in Victorian London, full of werewolves, vampires, dirigibles, and tea-drinking.

Identity Politics Reconsidered reconceptualizes the scholarly and political significance of social identity. It focuses on the deployment of 'identity' within ethnic, women's, disability, and gay and lesbian studies in order to stimulate discussion about issues that are simultaneously theoretical and practical, ranging from ethics and epistemology to political theory and pedagogical practice. This collection of powerful essays by both well-known and emerging scholars offers original answers to questions concerning the analytical legitimacy of 'identity' and 'experience', and the relationships among cultural autonomy, moral universalism and progressive politics.

combines a memoir of his own journey as a student of Buddhism and psychology with a powerful message about how cultivating true self-awareness and adopting a Buddhist understanding of change can free the mind. "Meditation was the vehicle that opened me up to myself, but psychotherapy, in the right hands, has similar potential. It was actually through my own therapy and my own studies of Western psychoanalytic thought that I began to understand what meditation made possible. As compelling as the language of Buddhism was for me, I needed to figure things out in Western concepts as well. Psychotherapy came after meditation in my life, but it reinforced what meditation had shown me." Before Mark Epstein became a medical student at Harvard and

began training as a psychiatrist, he immersed himself in Buddhism through experiences with such influential Buddhist teachers as Ram Dass, Joseph Goldstein, and Jack Kornfield. The positive outlook of Buddhism and the meditative principle of living in the moment came to influence his study and practice of psychotherapy profoundly. *Going on Being* is Epstein ' s memoir of his early years as a student of Buddhism and of how Buddhism shaped his approach to therapy. It is also a practical guide to how a Buddhist understanding of psychological problems makes change for the better possible. In psychotherapy, Epstein discovered a vital interpersonal parallel to meditation, but he also recognized Western psychology ' s tendency to

focus on problems, either by attempting to eliminate them or by going into them more deeply, and how this too often results in a frustrating “paralysis of analysis.” Buddhism opened his eyes to another way of change. Drawing on his own life and stories of his patients, he illuminates the concept of “going on being,” the capacity we all have to live in a fully aware and creative state unimpeded by constraints or expectations. By chronicling how Buddhism and psychotherapy shaped his own growth, Mark Epstein has written an intimate chronicle of the evolution of spirit and psyche, and a highly inviting guide for anyone seeking a new path and a new outlook on life.
