A renowned executive coach and psychologist shows readers how to recognize and overcome the emotional and psychological triggers that set off a reaction or a behavior that often is detrimental so that they can achieve meaningful and sustained change.

Bestselling author and world-renowned executive coach Marshall Goldsmith examines the environmental and psychological triggers that can derail us at work and in life. Do you ever find that you are not the patient, compassionate problem solver you believe yourself to be? Are you surprised at how irritated or flustered the normally unflappable you becomes in the presence of a specific colleague at work? Have you ever felt your temper accelerate from zero to sixty when another driver cuts you off in traffic? Our reactions don ' t occur in a vacuum. They are usually the result of unappreciated triggers in our environment—the people and situations that lure us into behaving in a manner diametrically opposed to the colleague, partner, parent, or friend we imagine ourselves to be. These triggers are constant and relentless and omnipresent. So often the environment seems to be outside our control. Even if that is true, as Goldsmith points out, we have a choice in how we respond. In Triggers, his most powerful and insightful book yet, Goldsmith shows how we can overcome the trigger points in our lives, and enact meaningful and lasting change. Goldsmith offers a simple " magic bullet " solution in the form of daily self-monitoring, hinging around what he calls " active " questions. These are questions that measure our effort, not our results. There ' s a difference between achieving and trying; we can ' t always achieve a desired result, but anyone can try. In the course of Triggers, Goldsmith details the six " engaging questions " that can help us take responsibility for our efforts to improve and help us recognize when we fall short. Filled with revealing and illuminating stories from his work with some of the most successful chief executives and power brokers in the business world, Goldsmith offers a personal playbook on how to achieve change in our lives, make it stick, and become the person we want to be.

In business - as in life - the right behaviours matter. But getting it right is tricky. Even when we acknowledge the need to change what we do and how we do it, life has a habit of getting in the way, upsetting even the best-laid plans. And just how do we manage those situations that can provoke even the most rational among us into behaving in ways we would rather forget? Triggers confronts head-on the challenges of behaviour and change, looking at the external factors (or ' triggers ') - both negative and positive - that affect our behaviours, our awareness of when we need to change, our willingness (or otherwise) to do so and our ability to see the change through. Drawing on his unparalleled experience as an international executive educator and coach, Marshall Goldsmith invites us to understand how our own beliefs and the environments in which we operate can trigger negative behaviours, or a resistance to the need to change. But he also offers up some simple, practical advice to help us navigate the negative and make the most of the triggers that will help us to sustain positive change.

Mojo is the moment when we do something that's purposeful, powerful, and positive and the rest of the world recognizes it. This book is about that moment—and how we can create it in our lives, maintain it, and recapture it when we need it. In his follow-up to the New York Times bestseller What Got You Here Won't Get You There, #1 executive coach Marshall Goldsmith shares the ways in which to get—and keep—our Mojo. Our professional and personal Mojo is impacted by four key factors: identity (who do you think you are), achievement (what have you done lately?), reputation (who do other people think you are—and what have you've done lately?), and acceptance (what can you change—and when do you need to just "let it go?"). Goldsmith outlines the positive actions leaders must take, with their teams or themselves, to initiate winning streaks and keep them coming. Mojo is: that positive spirit—towards what we are doing—now—that starts from the inside—and radiates to the outside. Mojo is at its peak when we are experiencing both happiness and meaning in what we are doing and communicating this experience to the world around us. The Mojo Toolkit provides fourteen practical tools to help you achieve both happiness and meaning—not only in business, but in life.

Revised and Updated. Featuring a New Case Study How do successful companies create products people can ' t put down? Why do some products capture widespread attention while others flop? What makes us engage with certain products out of sheer habit? Is there a pattern underlying how technologies hook us? Nir Eyal answers these questions (and many more) by explaining the Hook Model—a four-step process embedded into the products of many successful companies to subtly encourage customer behavior. Through consecutive " hook cycles, " these products reach their ultimate goal of bringing users back again and again without depending on costly advertising or aggressive messaging. Hooked is based on Eyal ' s years of research, consulting, and practical experience. Hooked is written for product managers, designers, marketers, start-up founders, and anyone who seeks to understand how products influence our behavior. Eyal provides readers with: • Practical insights to create user habits that stick. • Actionable steps for building products people love. • Fascinating examples from the iPhone to Twitter, Pinterest to the Bible App, and many other habit-forming products.
