Florida was the first region of the United States to be discovered, explored, and, after a fashion, settled by Euroamericans. Its population in the early 21st century is approaching 17 million. Within years the number of people living in the state will surpass those living in New York, and the Sunshine State will become the most populous area east of the Mississippi. The first book in English about Florida was written by Jean Ribault. A French adventurer, Ribault established a colony of Huguenots near present-day Jacksonville. He was captured by the very able Spanish commander Pedro Menendez, who ordered his French rival and all his minions killed. The state ' ' s long and colorful past is matched by its equally long and colorful literary production. Strangely, critical assessment of Florida literature has lagged far behind. With this volume, the Florida College English Association has formally begun an effort to correct this lamentable oversight. Included are papers on every aspect of Florida literature and history by scholars from every part of the state who are employed in every kind of institution of higher learning. Of special interest are the studies of Florida literature in the 19th century and in the late 20th and early 21st centuries, areas that are generally ignored in national journals. The papers on the contributions of African-American literary figures, such as Zora Hurston and James Weldon Johnson, are noteworthy. Of particular interest are the suggestions for teaching Florida studies in the classroom, which can be adapted for high school as well as college students.

Jupiter's Travels -Ted Simon's astonishing 4 year motorbike journey around the world The book that inspired Ewan McGregor's Long Way Round In the late 1970s Ted Simon set off on a Triumph and rode 63,000 miles over four years through fifty-four countries in a journey that took him around the world. Through breakdowns, prison, war, revolutions, disasters and a Californian commune, he travelled into the depths of fear and reached the heights of euphoria. He met astonishing people and was treated as a spy, a welcome stranger and even a god. For Simon the trip became a journey into his own soul, and for many others - including bikers Charley Boorman and Ewan McGregor - it provides an inspiration they will never forget. This classic text, which has informed a whole genre of travel writing in the thirty years since it was first published, will never be bettered for sheer adventure, passion, humour and honesty. Brought up in England by a German mother and a Romanian father, Ted Simon found himself impelled by an insatiable desire to explore the world. It led him to abandon an early scientific career in favour of journalism, and he has worked for several newspapers and magazines on Fleet Street and elsewhere. Ted Simon is also the author of Riding Home and The Gypsy in Me.

They have overcome design challenges and many have reached iconic status. Discover the spherical Isotta and the wedge shaped Bond Bug. As prized collectors items, some microcars now enjoy cult status. Ben Brooksby is a fifth-generation farmer from St Helens Plains in western Victoria. When he was younger, he struggled with anxiety and other mental health issues, as do so many others in rural communities. A simple social media post helped him to turn things around. After he shared a photo on Instagram showing himself naked in a truck full of lentils, he received a huge response, with other farmers wanting to share their own photos - and their stories. As the Naked Farmer movement grew, Ben met people from all around the country who wanted to get naked for mental health. As they got their kits off, they also opened up about their struggles. This is a heartwarming, moving and candid collection of stories of the challenges our farmers are facing, and the way these communities are banding together in response. Proudly supporting the Royal Flying Doctors Mental Health Service
