Politicians come and go, but the Constitution stands as the supreme law of the land. Setting forth the workings of our democracy, it is the bedrock document from which we derive our policies on topics as diverse and galvanizing as immigration, gun ownership, voting rights, taxation, policing, civil liberties, and war. In this indispensable edition, acclaimed historian and Constitutional expert Ray Raphael guides us through the origins, impact, and current relevance of the original text and all twenty-seven amendments. Here is the key historical context for issues in the news today—from the Electoral College to Washington gridlock, from peaceful protests to executive power. Thoughtful and nuanced, lively and highly readable, this annotated Constitution is for all of us to read and refer to—the ultimate political fact-checking source for every American.

"A must-read for this era." —Jake Tapper, CNN Anchor and Chief Washington Correspondent  
An insightful, urgent, and perennially relevant handbook that lays out in common sense language how the United States Constitution works, and how its protections are eroding before our eyes—essential reading for anyone who wants to understand and parse the constantly breaking news about the backbone of American government. The Constitution is the most significant document in America. But do you fully understand what this valuable document means to you? In *How to Read the Constitution--and Why*, legal expert and educator Kimberly Wehle spells out in clear, simple, and common sense terms what is in the Constitution, and most importantly, what it means. In compelling terms and including text from the United States Constitution, she describes how the Constitution 's protections are

## Get Free U S Consution For Dummies

eroding—not only in express terms but by virtue of the many legal and social norms that no longer shore up its legitimacy—and why every American needs to heed to this “ red flag ” moment in our democracy. This invaluable—and timely—resource includes the Constitution in its entirety and covers nearly every significant aspect of the text, from the powers of the President and how the three branches of government are designed to hold each other accountable, to what it means to have individual rights—including free speech, the right to bear arms, the right to be free from unreasonable searches and seizures, and the right to an abortion. Finally, the book explains why it has never been more important than now for all Americans to know how our Constitution works—and why, if we don ’ t step in to protect it now, we could lose its protections forever. How to Read the Constitution--and Why is essential reading for anyone who cares about maintaining an accountable government and the individual freedoms that the Constitution enshrines for everyone in America—regardless of political party.

Expand your political science knowledge with a book that explains concepts in a way anyone can understand! The global political climate is dynamic, at times even volatile. To understand this evolving landscape, it ’ s important to learn more about how countries are governed. Political Science For Dummies explores the questions that political scientists examine, such as how our leaders make decisions, who shapes political policy, and why countries go to war. The book is the perfect course supplement for students taking college-level, introductory political science courses. Political Science For Dummies is a guide that makes political science concepts easier to grasp. Get a better understanding of political ideologies, institutions,

policies, processes, and behavior Explore topics such as class, government, diplomacy, law, strategy, and war Learn the specialized vocabulary within the field of political science Help prepare for a range of careers, from policy analyst to legislative assistant Political science crosses into many other areas of study, such as sociology, economics, history, anthropology, international relations, law, statistics, and public policy. Those who want to understand the implications of changing political economies or how governing bodies work can look to Political Science For Dummies. It ' s the book thatcuts through the jargon as it focuses on issues that interest readers.

A history of the American Constitution's formative decades from a preeminent legal scholar When the US Constitution won popular approval in 1788, it was the culmination of thirty years of passionate argument over the nature of government. But ratification hardly ended the conversation. For the next half century, ordinary Americans and statesmen alike continued to wrestle with weighty questions in the halls of government and in the pages of newspapers. Should the nation's borders be expanded? Should America allow slavery to spread westward? What rights should Indian nations hold? What was the proper role of the judicial branch? In *The Words that Made Us*, Akhil Reed Amar unites history and law in a vivid narrative of the biggest constitutional questions early Americans confronted, and he expertly assesses the answers they offered. His account of the document's origins and consolidation is a guide for anyone seeking to properly understand America's Constitution today.
