For more than 3,000 years, Egypt was a great civilization that thrived along the banks of the Nile River. But when its cities crumbled to dust, Egypt's culture and the secrets of its hieroglyphic writings were also lost. The Pharaohs of Ancient Egypt explains how archaeologists have pieced together their discoveries to slowly reveal the history of Egypt's people, its pharaohs, and its golden days.

Cambridge Global English (1-6) is a six-level Primary course following the Cambridge Primary English as a Second Language Curriculum Framework developed by Cambridge English Language Assessment. Activity Book 5 provides additional practice activities to consolidate language skills and content material introduced in Learner's Book 5. A Model Unit for Grade 8: The Eye of Egypt is one book in the series Tools for Instruction and Reading Assessment. The series consists of twenty-four companion documents to Teaching to Diversity: The Three Block Model of Universal Design for Learning by Jennifer Katz. The model unit integrates major themes from Manitoba's curricula for the first term of the grade 8 school year. The topics are "Early Societies: Ancient Egypt" from the social studies curriculum and "Optics" from the science curriculum. These are brought into other disciplines: mathematics, physical education and health, language arts, and fine arts — particularly through the lens of the multiple intelligences (MI). Differentiated activities based on MI approaches inspire diverse students and accommodate their individual learning styles. MI activity cards are included, as well as planners that outline the essential understandings, essential questions, and final inquiry projects for the unit. Rubrics, based on Bloom's taxonomy, show a progression of conceptual thinking from rote, basic understanding to synthesized, higher-order analysis. Teachers can use this model unit as a template for planning subsequent thematic units for the rest of the school year.
