(Book). Now fully updated, The Hammond Organ: Beauty in the B traces the technological and artistic evolution of the B-3 and other tonewheel organs, as well as the whirling Leslie speakers that catapulted the Hammond sound into history. You'll discover the genius that went into the development of Hammond's tonewheel generator, drawbar harmonics, percussion, scanner vibrato and other innovations, as well as the incredible assistance Don Leslie provided for Hammond by creating his famous rotating speaker system. Plus B-3 legends including soul-jazzman Jimmy McGriff and progressive rocker Keith Emerson share their playing techniques; technical experts offer tips on buying, restoring, and maintaining Hammonds and Leslies; and over 200 photos illustrate historic Hammond organs, Leslie cabinets, and B-3 masters at work.

The ideal roadmap for defense lawyers and prosecutors, John M. Castellano has built on the fine works of the original authors of this book, James A. Adams and Daniel D. Blinka who appreciate the succinct analysis necessary to canvass the often tangled landscape of Fourth Amendment law. Their pragmatic approach has created a balanced, sound and comprehensive one-volume survey of arrest, search and seizure issues. The Third edition now features all decisions by the Supreme Court Fourth Amendment cases through June 2015 as well as significant and helpful circuit court decisions on a variety of topics. It includes a number of other new, expanded, or refined sections as well which include application for orders to intercept; bodily intrusions, emergency searches, and workplace searches. The eBook versions of this title feature links to Lexis Advance for further legal research options.
