Transurfing Reality was one of the top non-fiction bestsellers in the world in 2005 and 2006. Unknown till now in the West, the series has sold over 1,300,000 copies in Russia in three years. This translation (by Natasha Micharina) describes a new way of looking at reality, indeed of creating it. It provides a scientific explanation of the laws that help you do this, building up a scientific model, speaking in detail about particular rules to follow and giving important how-to tips, illustrated with examples. The author introduces a system of specific terms, notions, and metaphors, which together make a truly convincing, thought-provoking theory of creating your own life. “ You are ruled by circumstances and it will always be like that until you learn how to manage your reality, ” says the author. Bringing together the cutting edge of modern science and philosophical teaching, the book's style is popular-scientific, metaphorical and conversational. Books in the series: Reality Transurfing 1: The Space of Variations; Reality Transurfing 2: A Rustle of Morning Stars; Reality Transurfing 3: Forward to the Past; Reality Transurfing 4: Ruling Reality; Reality Transurfing 5: Apples Fall to

Everyone's watching Tufti. Everyone's reading Tufti. Everyone's talking about Tufti. Some shout, "We can't stand Tufti!" Others shout, "We want Tufti!" So who is she Priestess Itfut, who goes by the second name Tufti? Tufti is not a made up character. She used to exist and in some sense she still does. This book describes the amazing adventures of the priestess and her friends in metareality. What happens there is not entirely fiction. Truth be told, it is not fiction at all. The reader will have to decide for themselves how much of it they wish to believe. This book does not promise a magic wand and you will not absorb the superpowers of its fabulous characters by reading it, but you can take Tufti's techniques away with you, as many others have done already.

Meet the new world sensation. It's Tufti. Why is it that nothing seems to work out the way you want it to, despite the fact that you act according to your own free will? You might think that the reason why nothing is working out the way you want, is because that's just how life is. But the real reason things don't work out the way you want them to, is because you aren't acting according to your own free will - you are being directed by a script. Another reason things don't work out the way people want them to, is because they don't know how to take the right action to shape events the way they want. Rather than composing the reality of the upcoming film roll, they tend to battle with the reality they face in the current frame. Reality exists only in the here and now, and what is real is real only to the extent that it has taken place in the material world. You cannot change what has already happened. Yet when you fi

ght with your current reality, that is exactly what you are doing, because everything that surrounds you consists of something that has already happened. If you want to change the script, you have to wake up and come alive inside the movie. Translation from the Russian language by Joanna Dobson

Transurfing is a powerful tool for managing reality. Apply it and life will begin to change according to YOUR order. When you use Transurfing goals are not reached, so much as realised for the most part of themselves. It seems impossible to believe but only at first. The ideas presented in the book have already received practical confirmation. Those who have tried Transurfing, experience surprise bordering on delight as the world of the Transurfer inexplicably changes before their very eyes. What is the book about? Transurfing is the art of controlling reality using our freedom of choice. The world always reflects our perception of it. People can choose any variant of the development of current reality and thereby find themselves in circumstances they find desirable. To learn how to do this, you have to learn how to establish mutual understanding between the soul and mind, formulate intention and avoid the influence of destructive pendulums. Why should you read this book? Most people who have read "Transurfing," note that from the very first pages, the book completely reverses their view of the world and the role of the individual in their own life. A fresh look at reality encourages the reader to consciously relate to the choices they make in any moment, and this really changes their life in the direction they would like. "It works!" is the phrase found in almost all reviews of Vadim Zeland's book. Who is this book for? The book has aroused great interest among the young and middle-aged, those who are interested equally in

philosophy, psychology and physics and the mysteries of human consciousness. Why we decided to publish it The idea of " Transurfing Reality" quickly gained popularity when the author posted the text on the Internet. Numerous readers' reviews, saying that it really works, and the author's original take on the structure of reality prompted the publishers decide to publish Vadim Zeland's manuscript. We had no doubt that "Transurfing" would be popular among a huge audience About the author Vadim Zeland: "I'm over forty. Before the collapse of the Soviet Union I was engaged in research in the field of quantum physics, then computer technology, and now books. I live in Russia. My nationality is Russian, or more precisely, a quarter Estonian. The rest is irrelevant, as is all the above. Regarding my own success, all I can say is that Transurfing works perfectly. I don't however want to advertise my personal life, as then it would cease to be personal. Fame turns against you, if you give in to temptation and climb up on a pedestal for all to see. Among some people, the American Indians, for example, there is a belief that if someone copies your portrait (photographs you), they steal part of your soul. Of course, this is just superstition, but tthere is no smoke without fire. You can distribute a product of personal creativity; but release your personality for mass circulation - never. To the question of intrigued readers: "Who are you, Vadim Zeland?," I usually just say: "Nobody." My biography can not and should not be a matter of interest, since I am not thecreator of Transurfing, only a "retranslator." It is essential that we be nothing - an empty vessel, so that we do not impose our personal distortions onto this ancient Knowledge, that opens the door to a world, where the impossible becomes possible. Reality ceases to exist as something external and independent. and becomes manageable if you follow certain rules. The secret itself that is hidden only in as much as it lies on the surface, is so great that the

personality of its bearer ceases to be relevant. Perhaps the guardians who passed on this knowledge to me are of genuine interest but they too prefer to remain in the wings."

In his first major book since the legendary bestseller *The Seat of the Soul*, Gary Zukav reveals a revolutionary new path for spiritual growth. What began with an introduction to a major paradigm shift in *The Dancing Wu Li Masters* turned into a discussion of aligning our personalities with our soul in *The Seat of the Soul*; finally, in *Spiritual Partnership*, Zukav guides the reader on this practical path to authentic power.

Transurfing is simple, yet powerful Reality Management Technique, developed by the Russian quantum physics researcher Vadim Zeland. Zeland's main goal is to present a set of techniques (which he calls Transurfing of Realities) for the attainment of practical goals. These techniques are of mental and metaphysical nature. Zeeland supports these techniques by presenting a model of the universe that combines the elements of quantum physics with the idea of parallel worlds. As Zeland states, the use of the techniques is not dependant on the acceptance of his theoretical model. Some Transurfing techniques are very simple and practical. Zeland says: " You can not hide from the inevitable reality. Your life is determined by curcumstances and your place in society. Reality develops for the most part regardless of your own will. For every "I want" there is its own "You can't." In response to "Give it to me" you hear "You can't get it." There is little you can you do in such circumstances.... As a rule, human beings behave unambiguously. In their attempts to get what they want, they try to influence this world straight on, by the principle "Give it back to me." Direct impact, based on

How a new understanding of warfare can help the military fight today ' s conflicts more effectively The way wars are fought has changed starkly over the past sixty years. International military campaigns used to play out between armies at central fronts. Today's conflicts find major powers facing rebel insurgencies deploying elusive methods, from improvised explosives to terrorist attacks. Presenting a transformative understanding of these contemporary confrontations, *Small Wars, Big Data* shows that a revolution in the study of conflict yields new insights into terrorism, civil wars, and foreign interventions. Modern warfare is not about struggles over territory but over people; civilians—and the information they might provide—can turn the tide at critical junctures. Drawing lessons from conflicts in locations around the world, *Small Wars, Big Data* provides groundbreaking perspectives for how small wars can be better strategized and favorably won.

Transurfing is a powerful technology of managing reality. Apply it – and life will begin to change under YOUR order. The goal during using Transurfing doesn't reached, but implemented for the most part itself. It's impossible to believe , but only at first sight. The

ideas presented in the book have already found practical confirmation. Those who tried to do the Transurfing, was surprised, bordering on delight. The surrounding world of Transurfer is inexplicably changing before our eyes.
