Forget it, it will be right for you. Well ...

In Tom Kundig: Works, the celebrated Seattle-based architect presents nineteen new projects, from Hawaii to New York City. Kundig's award-winning houses, known for their rugged yet elegant and welcoming style, are showcased in lush photography with drawings and sketches, and appear alongside his commercial work—from multistory complexes to the Tacoma Art Museum to a line of hardware (handles, door pulls, hinges, and more). In firsthand accounts, Kundig describes the projects and his design process with many personal anecdotes, making Tom Kundig: Works as much memoir as monograph. The book also includes an introduction by design editor Pilar Viladas and in-depth conversations with Kundig's frequent collaborators—"gizmolist" Phil Turner and contractor Jim Dow (Schuchart/Dow)—and clients (Bigwood Residence and Studhorse).

From the bestselling, award-winning author of "The Devil's Arithmetic" comes her first Holocaust novel in nearly 30 years. Influenced by Dr. Mengele's sadistic experiments, this story follows twins as they travel from the Lodz ghetto, to the partisans in the forest, to a horrific concentration camp where they lose everything but each other.

Offers a collection of true facts about animals, food, science, pop culture, outer space, geography, and weather.

The GMAT Roadmap guide provides the definitive blueprint for students to follow as they get ready for the GMAT. All the test-taking wisdom gathered over the years by Manhattan Prep GMAT instructors has been distilled into practical advice and helpful tips. Success of the GMAT requires far more than content knowledge – it requires excellent strategy and proper execution of that strategy. The Guide helps students map out their studying, stick to their game plan, and manage test anxiety on the GMAT itself. It's like having a Manhattan Prep instructor at your fingertips! All of Manhattan Prep's GMAT Strategy Guides are aligned with the 2016 Edition GMAC Official Guide.

Brighter Child Spanish for Grade 2 helps students master beginning foreign language skills. Practice is included for learning number words, neighborhood words, classroom words, and more. School success starts here! Workbooks in the popular Brighter Child series are packed with plenty of fun activities that teach a variety of essential school skills. Students will find help for math, English and grammar, handwriting, and other important subject areas. Each book contains full-color practice pages, easy-to-follow instructions, and an answer key.

Marcus Wareing is a brilliant chef. His restaurant group Marcus Wareing Restaurants includes three critically-acclaimed restaurants – the two Michelin-starred Marcus at The Berkeley, as well as The Gilbert Scott and Tredwell's.

The Fifth Edition of A History of the Roman People continues to provide a comprehensive analytical survey of Roman history from its prehistoric roots in Italy and the wider Mediterranean world to the dissolution of the Roman Empire in Late Antiquity in A.D. 600. Clearly organized and highly readable, the text's narrative of major political and military events provides a chronological and conceptual framework for the social, economic, and cultural developments of the periods covered. Major topics are treated separately so that students can easily grasp key concepts and ideas.

This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.

Interviews describe ghetto life
