Life is fleeting. It's so easy to not take advantage of every day, so easy to forget that we only have this one life. So easy to become overwhelmed in the minutia we can fail to see the big picture. It wasn't until I started living for the one life I have, the only one I will have, that I found enjoyment and happiness.

Jean-Paul Sartre was a man of staggering gifts, whose accomplishments as philosopher, novelist, playwright, biographer, and activist still command attention and inspire debate. Sartre's restless intelligence may have found its most characteristic outlet in the open-ended form of the essay. For Sartre the essay was an essentially dramatic form, the record of an encounter, the framing of a choice. Whether writing about literature, art, politics, or his own life, he seizes our attention and drives us to grapple with the living issues that are at stake. *We Have Only This Life to Live* is the first gathering of Sartre's essays in English to draw on all ten volumes of *Situations*, the title under which Sartre collected his essays

people would ask whenever they were confronted by difficulties that would change their life temporarily or permanently. While some leave everything to fate, others had resolved to cope and hope for the better. Life is hard for Dawn L. Not only does she have a stubborn and callow husband, who has emotionally abused her, she also birthed two children with special needs--physically and psychologically. It took a lot of love, understanding, and dedication to manage her situation, but she pulled it through, although at one point she wished, "If only life were so simple!" While she copes with the challenges before her, L turned to writing short stories for children, and later was inspired to write the story of her own life--a tale of inner strength and unconditional love.
