The green beret was the official headdress of the British Commandos of the Second World War. It is still worn by members of the Royal Marines after passing the Commando Course and personnel from other units of the Royal Navy, Army and RAF who serve within 3 Commando Brigade and who have passed the All Arms Commando Course. There are certain other military organizations that also wear the green beret because they have regimental or unit histories that have a connection with the British Commandos

With the authenticity of Jarhead and Bravo Two Zero and the straight-up narrative of Contact Charlie, this military memoir describes what really goes on in the training of an elite soldier and his tours in Afghanistan. In 2004, Jake Olafsen signed up for the Royal Marines Commandos. He left everything behind at home in Canada on the basis of a spur-of-the-moment decision. The Royal Marines have the toughest and longest basic training of any infantry unit in the world. For Olafson, this meant eight months of wet and cold in England and Wales. It was hell, but he came out with the four Commando qualities that the corps look for: courage, determination, unselfishness, cheerfulness in the face of adversity. Olafsen went on to serve for four years as a Commando in the Royal Marines, an elite military unit based in the United Kingdom. He went to Afghanistan twice: in 2006, he went to confront the Taliban in Helmand Province for six months, and in 2007, he was sent to do it all over again. His story is filled with good experiences, like the sense of accomplishment, patriotism, and camaraderie, and the opportunity to travel the world. But all good things come at a price. The sacrifices he made for the Corps are significant; he has killed the enemy and he has buried his friends. And in telling his story, Olafsen hopes that he can make sense of it all. This is an honest, gutsy story about the mud and the blood, the triumphs and the tragedies. From the Hardcover edition.

The author of an award-winning memoir about growing up black in Mississippi, Chalmers Archer turns his attention in this book to his experiences as one of the first members of the U.S. Army's Special Forces. His perspective is unique, not only as one of the first to wear the Green Beret but as a black man in the early days of armed forces integration. Archer participated in some of the earliest forays into Laos, long before Southeast Asia was in American headlines, and he was a member of the first U.S. unit to go into Vietnam. He trained the first Special Forces teams of the South Vietnamese army and participated in some of their earliest operations, many of them unknown until now because of their highly classified nature. He saved the lives of the first American and Vietnamese soldiers injured in war and also witnessed the first American combat death in Vietnam, holding the man in his arms as he died. His unit operated alongside the Central Intelligence Agency and helped influence American foreign policy. A self-described soldier-teacher, he developed and spread the early gospel of special warfare while serving in the Philippines, Hawaii, Korea, Taiwan, and Panama, as well as in Southeast Asia. All of these activities are fully chronicled in this book, but Archer's perspective as an African American in an elite unit of the U.S. armed forces in the 1950s gives his memoir additional depth and insight. It is an uplifting--though sometimes harrowing--story of struggle in unfamiliar environments and an eye-opening account of events little known today.

Action-packed stories of the army's legendary special forces fighters from the #1 New York Times' bestselling author of The Hunt for Bin Laden. Since their inception, the Green Berets have become legends of the military world, moving behind enemy lines to cause havoc and build resistance wherever possible. Their heroic exploits are a constant reminder of those who give all for their country. Here, the bestselling author of The French Connection teams up with a special ops staff officer to offer combat stories based on true events, shared with them by men who wear the beret. They will take you from firefights on the Cambodian border during the Vietnam War to the streets and alleyways of Iraq today, show what it was really like to patrol the streets of Mogadishu in the days of Black Hawk Down, reveal the horrors that were commonplace in Saddam Hussein's Iraq during the first Gulf War, and drop you into the blasted landscape of Afghanistan in search of the Taliban. An up-close view of special operations warfare, The Wars of the Green Berets continues the gripping saga of Moore's classic bestseller The Green Berets.

The inspiring true story of a US Special Forces soldier who was medically retired after stepping on an IED, and his incredible return to active duty. Sergeant First Class (SFC) Ryan Hendrickson is a brave, determined, and courageous soldier -- a Green Beret clearing the way for his twelve-man team while conducting combat operations against the Taliban. As the "tip of the spear," his role is to ensure the route taken by U.S. and Afghan troops are free of IEDs -- improvised explosive devices. Many soldiers do not survive their last step; those who do often lose at least one limb. While rescuing an Afghan soldier outside a mud-hut compound in 2010 -- knowing that he was in "uncleared" territory -- Ryan stepped on an IED with his right foot. The device exploded, leaving his foot dangling at the end of his leg. American soldiers losing a limb is an all-too-common occurrence. But what makes Ryan's story different is that after undergoing two dozen surgeries and a tortuous rehabilitation, he was medically retired but fought to return to active duty. Multiple skin grafts to his leg and right foot successfully reattached his lower leg, and he was aided in his recovery by wearing a new prosthetic device known as an IDEO (Intrepid Dynamic Exoskeletal Orthosis). Once he passed a series of crucial physical tests, Ryan was able to rejoin the Green Berets within a year and physically perform his duties, redeploying to Afghanistan in March 2012. In 2016, he volunteered to return to Afghanistan with Bravo Company, 2nd Battalion, 7th Special Forces Group. During a firefight with the Taliban, he risked his life under heavy enemy fire to rescue three Afghan soldiers cut off from friendly forces and return the bodies of two dead Afghan soldiers under the ethos that "no one gets left behind." For his heroic efforts on the battlefield, SFC Ryan Hendrickson was awarded a Silver Star, the nation's third-highest award for valor. An engaging and harrowing account, Tip of the Spear tells the amazing story of one Green Beret's indomitable spirit.

An edge-of-your-seat thriller about a group of retired Green Berets who come together to save a former comrade and 500 other Afghans being targeted by the Taliban in the chaos of America's withdrawal from Afghanistan. In April, an urgent call was placed from a Special Forces operator serving overseas. The message: Get Nezam out of Afghanistan now. Nezam was part of the Afghan National Army's first group of American-trained commandos. He passed through Fort Bragg's legendary Q course and served alongside the US Special Forces for over a decade. But Afghanistan's government and army are collapsing, and Nezam is getting threatening texts from the Taliban. The message reached Nezam's former commanding officer, retired Lt. Col. Scott Mann, who can't face the idea of losing another soldier in the long War on Terror. He sends out an SOS to a group of Afghan vets (Navy SEALs, Green Berets, CIA officers, USAID advisors). They all answer the call for one last mission. Operating out of basements and garages, Task Force Pineapple organizes an escape route for Nezam and gets him into hiding in Taliban-controlled Kabul. After many tense days, he braves the enemy checkpoints and the crowds of thousands blocking the airport gates. He finally makes it through the wire and into the American-held airport thanks to the frantic efforts of the Pineapple express, a relentless Congressional aide, and a US embassy official. Nezam is safe, but calls are coming in from all directions requesting help for other Afghan soldiers, interpreters, and at-risk women and children. Task Force Pineapple begins all over again and ends up rescuing 500 more Afghans from Kabul in the three chaotic days before the ISIS-K suicide bombing. Operation Pineapple Express is a thrilling, suspenseful tale of service and loyalty amidst the chaos of the US withdrawal from Afghanistan.

An action-packed adventure that will take the reader into the bush with all of the U.S. military's Special Forces--SEALs, Green Berets, Army Rangers, Marine Force Recon, and USAF Special Ops. Pulitzer Prize-winning reporter David Bohret traveled with each team as they trained in remote corners of the globe. Each Special Force has chapters devoted to their history, weapons and special equipment, and training procedures. Full-color action photos illustrate the team members and their weapons, while sidebars detail events and operations. 200 photos, 175 in color.

An action-packed novel--originally published in 1965 and updated to include new role of modern-day Special Forces in the war against terrorism--describes the operations, dangerous missions, and guerrilla warfare tactics of the United States Army Special Forces fighting in the Vietnam War. Reprint.

Since their formation by Winston Churchill during the dark days of the Second World War, the Commandos have been regarded as among the most feared amphibious infantry in the world. Lightly equipped, fast, silent and deadly - the Commandos epitomize the modern soldier. They are highly trained, disciplined, tough, determined and efficient, always basing their operations on speed, mobility, surprise and firepower. But who are the Commandos? What qualities do they have beyond those of the normal soldier? There are two ways to join the Royal Marine Commandos: thru the Recruit Troop Course for teenagers; or thru the All Arms Commando Course for volunteers from the other services. This book follows two such courses as the recruits and volunteers pit themselves against the Commando Tests - and against themselves - for the right to wear the coveted Green Beret.
