In this empowering, accessible guide, Jaelyn Friedman—co-editor of Yes Means Yes—gives young women the tools to decipher the modern world's confusing, hypersexualized, sometimes dangerous landscape so they can define their own sexual identity. Friedman decries the hypocrisy and mixed messages of our culture (we're failures if we don't act sexy, but we're sluts if we actually pursue sex; we need to be protected from rapists lurking in bushes, but deserve "whatever we get" if we have a drink at a party and wear a skirt), and encourages readers to separate fear from fact, decode the damaging messages all around them, and discover a healthy personal sexuality. Educational and interactive, What You Really Really Want includes revealing quizzes, creative exercises, and reality-based advice about sex and sexuality today. For more than two thousand years, the writings of the Confucian philosopher Mengzi have been a source of guidance and inspiration for those set on doing something to improve the state of the world. In Doing What You Really Want, Franklin Perkins presents a coherent, systematic, and accessible explanation of Mengzi's philosophy. He covers everything from the place of human beings in nature, to human psychology and philosophy of emotions, to the various ways in which we can deliberately change and cultivate ourselves. Mengzi was concerned not just with theory but also effective action. Perkins thus includes a collection of practical advice and a Confucian analysis of politics oriented toward how individuals can make a difference in the world. These topics are integrated around Mengzi's philosophy as a way of life dedicated to changing the world, providing an alternative approach for understanding the contemporary relevance of Confucianism. Mengzi offers theoretical and practical resources valuable for anyone concerned with integrating efforts to improve the world with personal fulfillment and a sense of belonging. Rather than giving an overview, this is a focused work of philosophy that delves deeply into the most relevant themes of Mengzi's thought. The core philosophical system is drawn from Mengzi, but the book regularly incorporates other Confucian materials, making this volume a useful introduction to Confucian thought.

Have Anything You Really Really Want! is a thought-provoking study about the power of positive thinking and the Christian faith. It follows the author's own personal journey of faith and discovery as he details how his Christian faith unleashed a positive power—in the attainment of personal, even material goals (including the acquisition of university degrees and a Rolls Royce!), but more significantly in the realisation of far-reaching goals: the discovery of his wife and ultimately the transition from university professor in South Africa to successful hotel-owner in Scotland. An important lesson in the experience of mid-life change is seen in the close dependence on God's love and boundless supply for all needs, material and spiritual. From establishing an objective, working out a strategy, and using faith and initiative, this detailed thesis explores the essential principles for personal success and achievement and guides the reader step-by-step through the practical process of attaining his or her goals. In the final analysis, however, it asks whether it is the individual, or the invisible hand of Providence, which engineers the success—even to the extent of changing one's original goals, and changing oneself in the process.
