Take a sneak peak inside with these six super facts from What's Weird on Earth... 1) The green basilisk lizard runs on water to escape predators! 2) The dung beetle can bury a ball of dung 250 times heavier than itself in one night! 3) The three-toed sloth moves so slowly that algae grows on its fur!

What's Weird on Earth! | National Geographic Kids

Weird stuff like UFO sightings, where animals fell from the sky and other odd stuff that kids will love to read. Its good because it helps improve their geography knowledge by wanting to find out more about different parts of the world and its a big hardback book that's made to stand the test of time (Though keep in mind the pages are a little thin so small hands may rip them) Great book cannot fault it.

Whats Weird On Earth Childrens Atlas

Whats Weird On Earth Childrens What's Weird on Earth is a magnificent work. Although it may be billed as a children's book, I think that it can also serve as a coffee-table book. It seems larger than its ten by twelve inch size; perhaps because most of the pages are in the form of a two-page color spread.

don't read it out loud! You may catch wind of these words: toot, stinky, booger, and booty. You've been warned, but you'll still want to see what happens next!

The human body has thousands of types of proteins, all of which play vitally important functions. While the body produces some of the amino acids it needs, the rest must be supplied through diet. This informative introduction explains what proteins are, the various tasks they enable, their diverse dietary sources, and what can result from consuming too much or too little protein. Sidebar boxes define key vocabulary words or contain questions to spur critical thinking. This book is great for both science and health collections.

Step back in time to discover the incredible past on planet Earth. This captivating children's atlas gives a complete history of the life and times of our world, shown in a series of stunning, specially commissioned 3D maps. Discover the impact of global events over millennia and centuries past. Wrap up warm for a trip to the Ice Age, wonder at the invention of the wheel, show your support at the French Revolution, and blast off for the Moon landings. This round the world trip begins with the first humans and cities before visiting the Egyptian pharaohs and experiencing the rise of the Roman Empire. You'll travel through time right up until recent history, including World War II and the Space Age. From ancient times to the 21st century, these colourful, detailed maps pinpoint exactly when and where the most important events and movements in history happened, as well as the part they all played in shaping the world today. What Happened When in the World is the ultimate unique atlas and the ideal gift for
