An exuberant, uniquely accessible, beautifully illustrated look inside the enigmatic art and craft of conducting, from a celebrated conductor whose international career has spanned half a century. John Mauceri brings a lifetime of experience to bear in an unprecedented, hugely informative, consistently entertaining exploration of his profession, rich with anecdotes from decades of working alongside the greatest names of the music world. With candor and humor, Mauceri makes clear that conducting is itself a composition: of legacy and tradition, techniques handed down from master to apprentice--and more than a trace of ineffable magic. He reveals how conductors approach a piece of music (a calculated combination of personal interpretation, imagination, and insight into the composer's intent); what it takes to communicate solely through gesture, with sometimes hundreds of performers at once; and the occasionally glamorous, often challenging life of the itinerant maestro. Mauceri, who worked closely with Leonard Bernstein for eighteen years, studied with Leopold Stokowski, and was on the faculty of Yale University for fifteen years, is the perfect guide to the allure and theater, passion and drudgery, rivalries and relationships of the conducting life.

Argues that commercialism has radically transformed classical music and opera

In this compulsively readable, fascinating, and provocative guide to classical music, Norman Lebrecht, one of the world's most widely read cultural commentators tells the story of the rise of the classical recording industry from Caruso's first notes to the heyday of Bernstein, Glenn Gould, Callas, and von Karajan. Lebrecht compellingly demonstrates that classical recording has reached its end point—but this is not simply an exposé of decline and fall. It is, for the first time, the full story of a minor art form, analyzing the cultural revolution wrought by Schnabel, Toscanini, Callas, Rattle, the Three Tenors, and Charlotte Church. It is the story of how stars were made and broken by the record business; how a war criminal conspired with a concentration-camp victim to create a record empire; and how advancing technology, boardroom wars,

public credulity and unscrupulous exploitation shaped the musical backdrop to our modern lives. The book ends with a suitable shrine to classical recording: the author's critical selection of the 100 most important recordings—and the 20 most appalling. Filled with memorable incidents and unforgettable personalities—from Goddard Lieberson, legendary head of CBS Masterworks who signed his letters as God; to Georg Solti, who turned the Chicago Symphony into “the loudest symphony on earth”—this is at once the captivating story of the life and death of classical recording and an opinioned, insider's guide to appreciating the genre, now and for years to come.

Adult books are categorized by genre (i.e., fiction, mystery, science fiction, nonfiction). Along with bibliographic information, the expected date of publication and the names of literary agents for individual titles are provided. Starred reviews serve several functions: In the adult section, they mark potential bestsellers, major promotions, book club selections, and just very good books; in the children's section, they denote books of very high quality. The unsigned reviews manage to be discerning and sometimes quite critical.
