In this controversial national bestseller, former NBA star and author of *I May Be Wrong But I Doubt It* Charles Barkley takes on the major issue of our time. *Who's Afraid of a Large Black Man* is a series of charged, in-your-face conversations about race with some of America's most prominent figures, including Bill Clinton, Barack Obama, Jesse Jackson, Samuel L. Jackson, Morgan Freeman, Ice Cube, Marian Wright Edelman, Tiger Woods, Peter Guber, and Robert Johnson.

The secrets behind China's extraordinary educational system – good, bad, and ugly Chinese students' consistently stunning performance on the international PISA exams— where they outscore students of all other nations in math, reading, and science—have positioned China as a world education leader. American educators and pundits have declared this a "Sputnik Moment," saying that we must learn from China's education system in order to maintain our status as an education leader and global superpower. Indeed, many of the reforms taking hold in United States schools, such as a greater emphasis on standardized testing and the increasing importance of core subjects like reading and math, echo the Chinese system. We're following in China's footsteps—but is this the direction we should take? *Who's Afraid of the Big Bad Dragon?* by award-winning writer Yong Zhao offers an entertaining, provocative insider's account of the Chinese school system, revealing the secrets that make it both "the best and worst" in the world. Born and raised in China's Sichuan province and a teacher in China for many years, Zhao has a unique perspective on Chinese culture and education. He explains in vivid detail how China turns out the world's highest-achieving students in reading, math, and science—yet by all accounts Chinese educators, parents, and political leaders hate the system and long to send their kids to western schools. Filled with fascinating stories and compelling data, *Who's Afraid of the Big Bad Dragon?* offers a nuanced and sobering tour of education in China. Learn how China is able to turn out the world's highest achieving students in math, science, and reading Discover why, despite these amazing test scores, Chinese parents, teachers, and political leaders are desperate to leave behind their educational system Discover how current reforms in the U.S. parallel the classic Chinese system, and how this could help (or hurt) our students' prospects

Four very hungry bunnies have run out of carrots! One by one they hop off to the vegetable patch. But someone is lying in wait. Someone BIG... and BAD! A fabulous, funny story about a big, bad bunny, and how to stop bullies like him!

Charles Barkley has never been shy about expressing his opinions. Michael Jordan once said that we all want to say the things that Barkley says, but we don't dare. But even die-hard followers of the all-time NBA great, the star of TNT's *Inside the NBA* and CNN's *TalkBack Live*, will be astonished by just how candid and provocative he is in this book—and just how big his ambitions are. Though he addresses weighty issues with a light touch and prefers to stir people to think by making them laugh, there's nothing Charles Barkley shies away from here—not race, not class, not big money, not scandal, not politics, not personalities, nothing.

"Early on," says Washington Post columnist and ESPN talk show host Michael Wilbon in his Introduction, "Barkley made his peace with mixing it up, and decided the consequences were very much worth it to him. And that makes him as radically different in these modern celebrity times as a 6-foot-4-inch power forward." If there's one thing Charles Barkley knows, it's the crying need for honest, open discussion in this country—the more uncomfortable the subject, the more necessary the dialogue. And if the discussion leader can be as wise, irreverent, (occasionally) profane and (consistently) funny as Charles Barkley, so much the better. Many people are going to be shocked and scandalized by I May Be Wrong but I Doubt It, but many more will stand up and cheer. Like Molly Ivins or Bill O'Reilly, Charles Barkley is utterly his own thinker, and everything he says comes from deep reflection. One way or another, if more blood hasn't reached your brain by the time you've finished this book, maybe you've been embalmed.

Drawing on his own experience, as well as interviews with more than 100 black Americans—including Henry Louis Gates Jr., Malcolm Gladwell, Chuck D, Soledad O'Brien, the Reverend Jesse Jackson, Aaron McGruder and more--the author explores what it means to be black in a post-2008 United States. By the author of Never Drank the Kool-Aid

Have you ever fallen into a book? Well, if you do, just make sure it isn't a fairy tale. The Big Bad Bogey is a green, mean, icky MONSTER. He doesn't care whose story he ruins! Big mean Bertha threatens everyone, especially Max, until he gets a dog.

"Peter Dougherty does the near-impossible in this brilliant book . . . [he] makes economics engaging and accessible." --Professor Larry J. Sabato, University of Virginia In this spirited and timely book, Peter Dougherty shows how economists are drawing on Adam Smith's civic writings to illuminate how the market creates not only fiscal capital, but "social capital." Dougherty demonstrates how Smith's ideas are currently experiencing a renaissance. He then explores several impressive initiatives to demonstrate what today's theoretical and practicing economists are accomplishing in the spirit of Adam Smith's moral sentiments: the institutional reform of transitional and developing economies; the financing of new technological, medical, and educational initiatives; and the economic revival of cities. Capitalism pervades every aspect of our daily life. Peter Dougherty now offers a fascinating peek at its hidden soul.

Digging up the remains of an ancient band of Vikings, archaeologist Hildy is astounded when they rise from the dead, bearing an appetite for seagulls, a twelve-thousand-year-old grudge, and a thirst for war.
