I'm not normally a history buff, but I did find this book interesting. I had no idea that Bryan ran for President three different times. It is written for youth, but I found that the book still kept my interest.

A review of *A Godly Hero: The Life of William Jennings Bryan*, by Michael Kazin. *A Godly Hero*, by Georgetown historian Michael Kazin, is an admirable if quixotic attempt to refurbish American liberalism by reconsidering the life of William Jennings Bryan. Insofar as he is known at all today, the three-time presidential nominee of the Democratic Party (in 1896, 1900, and 1908), is thought of as ...

An open-minded layman tackles key issues in Baptist life today such as the Bible, racism, women in ministry, and denominational politics. Incisively, Paul Dodd cuts to the heart of these issues.

Madera almost didn't exist. In 1876 there was nothing where this thriving city now stands, but the California Lumber Company was looking for a western terminus for its massive logging flume under construction. Prompted by a deal from early landowners, the company chose this spot and put up a temporary boardinghouse for its workers. Soon the town was platted out, lots were sold, and the city grew as the completed flume began to bring in lumber from the hills, meeting the railroad. Hotels, stores, a post office, and citizens followed, making Madera (Spanish for "lumber") an important place of business, life, and leisure. In 1893, the city became the county seat of the newly minted Madera County, and structures continued to spring up along Yosemite Boulevard and beyond. The flume is gone now, but Madera owes its existence to early logging.

The updated edition of *Steal This Vote*—a rollicking history of US voter suppression and fraud from Jacksonian democracy to Citizens United and beyond. In *Down for the Count*, award-winning journalist Andrew Gumbel explores the tawdry history of elections in the United States. From Jim Crow to Tammany Hall to the Bush v. Gore Florida recount, it is a chronicle of votes bought, stolen, suppressed, lost, miscounted, thrown into rivers, and litigated up to the Supreme Court. Gumbel then uses this history to explain why America is now experiencing the biggest backslide in voting rights in more than a century. First published in 2005 as *Steal This Vote*, this thoroughly revised and updated edition reveals why America faces so much trouble running clean, transparent elections. And it demonstrates how the

partisan battles now raging over voter IDs, campaign spending, and minority voting rights fit into a long, largely unspoken tradition of hostility to the very notion of representative democracy. Interviewing Democrats, Republicans, and a range of voting rights activists, Gumbel offers an engaging and accessible analysis of how our democratic integrity is so often corrupted by racism, money, and power. In an age of high-stakes electoral combat, billionaire-backed candidacies, and bottom-of-the-barrel campaigning, this book is more important than ever. “In a riveting and frightening account, Gumbel . . . traces election fraud in America from the 18th century to the present . . . [the issues he] so winningly addresses are crucial to the future of democracy.” —Publishers Weekly, on *Steal This Vote*

Maria McDonald Jolas, cofounder with Eugene Jolas of the international literary journal *transition*, has been called a survivor of the heroic generation and "the leading lady of Paris literati of the Thirties." Her memoir and other writings, edited and introduced by Mary Ann Caws, reveal the measure of her contribution to our understanding of modernism. Caws supplements Jolas's memoir with the memoirist's radio addresses, lectures, journal entries, and letters to her husband.

THIS is the story of a rare human being, a dynamo of a woman who devoted her life, joyfully, humorously, expertly, uniquely, to others. Orphaned at 3, brought up by the Sisters of Charity in Nevada, a nun herself at 20, Sister Stanislaus, after several months of nurses' training in Baltimore, was sent to work in New Orleans. She never really left. Her first, last, and only assignment was Charity Hospital, New Orleans. In time, the two became virtually synonymous. She spent over fifty years there. When she arrived, Charity Hospital comprised one antiquated building; modern medicine was in its swaddling clothes; nursing was an even more hit-or-miss affair. When she left, Charity Hospital was one

of the finest in the land and nursing had become a highly professional career. Sister Stanislaus played a large part in the development of both. She brought to nursing a great and joyful zeal, an originality, and a love which affected everyone she came in contact with. Constantly perfecting herself as a nurse, she became one of the best known nursing-sisters in the country. But she did not stop there. Changing, innovating, wheedling money from a string of politicians—from Huey Long and his predecessors by Earl Long—she built Charity Hospital into the great modern institution it is. Yet her fame and her influence were not a result of her public achievement; they were based upon something more immediate, more spiritual. They grew from her all-embracing charity, her lifetime of devotion to the sick and the troubled. She was beloved as a person; the rest, an incredible array of activities and duties, accomplishment and concern, simply happened. Or so she pretended. An extraordinary personality merges from this brisk, expertly written biography, a lively and highly original nun, nurse, and human being, full of surprises but indefatigably on the job, bringing relief and consolation to thousands who passed in and out of a great hospital.

He comes out of his splendid isolation to protect Helen and her kid sister, Bo. Leading them away from manmade danger, exposing them to unaccustomed rigor on mountain trails, Dale imparts his rugged philosophy. Beyond the forest, Beasley and Snake Anson are still waiting to carry out their evil plot. *The Man of the Forest* is one of Zane Grey's most celebrated nature novels. Zane Grey was born in Zanesville, Ohio, in 1872. His career, which spanned thirty-five years, produced more than 80 books and 108 films based on his work. He died in 1939.
