collection of comic writings is from a man who needs no Introduction. Really—this book has no Introduction. The Insanity Defense reveals many sides of Woody Allen as he holds forth on the most human of urges (“Why does man kill? He kills for food. And not only for food: frequently there must be a beverage”); reflects on death (“I don’t believe in an afterlife, although I am bringing a change of underwear”); and notes the effect on history wrought by trick chewing gum, the dribble glass, and other novelties. There is also an inspiring story of the futile race to beat Dr.

Heimlich to the punch: "The food went down the wrong pipe, and choking occurred. Grasping the mouse firmly by the tail, I snapped it like a small whip, and the morsel of cheese came loose. If we can transfer the procedure to humans, we may have something. Too early to tell." All Woody Allen fans will cherish this uproarious treasury—and those who don't enjoy The Insanity Defense are just plain crazy. "If you don't care if you break into helpless whoops of laughter on buses, trains, or wherever you happen to be reading it." -Chicago Tribune, on Without Feathers

Offering a collection of diverse readings reinforced with discussions of the rhetorical modes, the fifth edition now provides new essays, writing prompts, and an expanded glossary.

This new edition includes most of the essays that have made The Broadview Reader one of the most popular first-year textbooks in Canada, and adds 18 fresh selections. As before, essays are gathered into

groups by topic, but the editors also provide alternative tables of contents by rhetorical patterns and devices, and by chronology. Each selection is followed by a wide range of questions and suggestions for discussions, and the reader also includes a glossary and biographical notes. Most of the new selections are of recent vintage, but in recognition of the degree to which “modern” issues often have a long and honourable history, the editors have also added several selections by nineteenth-century writers. Also, the reader now includes a full section on

“Women in Society.” The book’s balance of Canadian and non-Canadian writers has been maintained, as has the range of different styles and different essay lengths that are included. In all, the new edition includes 80 selections.

Here they are--some of the funniest tales and ruminations ever put into print, by one of the great comic minds of our time. From THE WHORE OF MENSA, to GOD (A Play), to NO KADDISH FOR WEINSTEIN, old and new Woody Allen fans will laugh themselves hysterical over these sparkling gems.

“Kitty Burns Florey seems to write from a great wellspring of inner calm that derives from a gleeful appreciation of life's smallest details.” –Richard Russo, Pulitzer Prize-winning author of *Empire Falls* Once wildly popular in grammar schools across the country, sentence diagramming has fallen out of fashion. But are we that much worse for not knowing the word-mapping method? Now, in this illustrated personal history that any language lover will adore, Kitty Burns Florey explores the rise and fall of

sentence diagramming, including its invention by a mustachioed man named Brainerd “Brainy” Kellogg and his wealthy accomplice Alonzo Reed ... the inferior “balloon diagram” predecessor ... and what diagrams of sentences by Hemingway, Welty, Proust, Kerouac and other famous writers reveal about them. Florey also offers up her own common-sense approach to learning and using good grammar. And she answers some of literature’s most pressing questions: Was Mark Twain or James Fenimore Cooper a better grammarian? What are the silliest grammar rules? And what’s

Gertude Stein got to do with any of it?

Woody Allen is one of America's most prolific authors, actors, and auteur film directors. His oeuvre, which spans five decades, has always been marked by a postmodern play with conventions, experimental techniques, and explorations of the status quo of modern urban lives. Yet, Woody Allen is also a nostalgic who makes the history of his nation, his people, and his individual subjects the

constant theme of his work. Whether cryogenically frozen Miles Monroe wakes up in the future only to misinform scientists about the past; whether stand-up comedian Alvy Singer reminisces his relationship to Annie Hall; or, whether ophtalmologist Judah Rosenthal is tormented by his memory of his Jewish rabbinical father after having had his girlfriend killed; the past, whether personal or communal, is always an integral part of Allen's characterizations and plots. Contrary to the assumption that postmodernity is necessarily linked to the future only and negates all history, the

present study argues that postmodern subjects very much depend on an active evaluation of the past and that, through the lens of history, present crises and traumata can be overcome. In this way, nostalgia manages to bring history back into postmodernism.
