Drawing on her experiences as a professor of English and the author of sixteen highly acclaimed books, critic bell hooks presents an insightful collection of essays on the process and politics of writing. Centrally, many of the essays raise provocative questions about the feminist movement and women's writing--the kinds of voices women have established in the wake of the demand for more writing by women, the politics of confession and the type of standards being set for women writers by critics. Several essays explore hooks's personal relationship to publishing, explaining the impact success has had on her work as she highlights her movement from writing in relative isolation to writing in New York City amidst the publishing industry, in a world full of writers. Other essays focus on the dearth of nonfiction writing by Black women, contrasting that with the rise in their published fiction. More general essays focus on writing as healing, raising issues about the function of writing; the extent to which readers inspire writers; and how race, ger, and class can determine one's relationship to words. Remembered Rapture offers a fresh and lively discussion of living with words.

"This is a book for activists and educators who not only think schools need to be improved but are also fiercely committed to their reinvention and hopeful that it can be achieved"--

"Poignant....important and illuminating."—"The New York Times Book Review "Groundbreaking."—Bryan Stevenson, New York Times bestselling author of *Just Mercy* From one of the world’s leading experts on unconscious racial bias come stories, science, and strategies to address one of the central controversies of our time How do we talk about bias? How do we address racial disparities and inequities? What role do our institutions play in creating, maintaining, and magnifying those inequities? What role do we play? With a perspective that is at once scientific, investigative, and informed by personal experience, Dr. Jennifer Eberhardt offers us the language and courage we need to face one of the biggest and most troubling issues of our time. She exposes racial bias at all levels of society—in our neighborhoods, schools, workplaces, and criminal justice system. Yet she also offers us tools to address it. Eberhardt shows us how we can be vulnerable to bias but not doomed to live under its grip. Racial bias is a problem that we all have a role to play in solving.

Describes how changing concepts of racial identity will impact race relations, discussing such topics as discrimination, immigration, diversity, globalization, and the mixed-race movement.

**#1 NEW YORK TIMES BESTSELLER •** From the National Book Award–winning author of *Stamped from the Beginning* comes a “groundbreaking” (Time) approach to understanding and uprooting racism and inequality in our society—and in ourselves. “The most courageous book to date on the problem of race in the Western mind.”—The New York Times **NAMED ONE OF THE BEST BOOKS OF THE YEAR** BY The New York Times Book Review • Time • NPR • The Washington Post • Shelf Awareness • Library Journal • Publishers Weekly • Kirkus Reviews Antiracism is a transformative concept that reorients and reenergizes the conversation about racism—and, even more fundamentally, points us toward liberating new ways of thinking about ourselves and each other. At its core, racism is a powerful system that creates false hierarchies of human value; its warped logic extends beyond race, from the way we regard people of different ethnicities or skin colors to the way we treat people of different sexes, gender identities, and body types. Racism intersects with class and culture and geography and even changes the way we see and value ourselves. In *How to Be an Antiracist*, Kendi takes readers through a widening circle of antiracist ideas—from the most basic concepts to visionary possibilities—that will help readers see all forms of racism clearly, understand their poisonous consequences, and work to oppose them in our systems and in ourselves. Kendi weaves an electrifying combination of ethics, history, law, and science with his own personal story of awakening to antiracism. This is an essential work for anyone who wants to go beyond the awareness of racism to the next step: contributing to the formation of a just and equitable society. Praise for *How to Be an Antiracist* “Ibram X. Kendi’s new book, *How to Be an Antiracist*, couldn’t come at a better time. . . . Kendi has gifted us with a book that is not only an essential instruction manual but also a memoir of the author’s own path from anti-black racism to anti-white racism and, finally, to antiracism. . . . *How to Be an Antiracist* gives us a clear and compelling way to approach, as Kendi puts it in his introduction, “the basic struggle we’re all in, the struggle to be fully human and to see that others are fully human.” —NPR “Kendi dissects why in a society where so few people consider themselves to be racist the divisions and inequalities of racism remain so prevalent. *How to Be an Antiracist* punctures the myths of a post-racial America, examining what racism really is—and what we should do about it.”—Time

Americans have built an empire on the idea of “race,” a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? Between the World and Me is Ta-Nehisi Coates’s attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children’s lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

Frank, fearless letters from poets of all colors, genders, classes about the material conditions under which their art is made.
