The Lottery, one of the most terrifying stories written in this century, created a sensation when it was first published in The New Yorker. "Power and haunting," and "nights of unrest" were typical reader responses. This collection, the only one to appear during Shirley Jackson's lifetime, unites "The Lottery" with twenty-four equally unusual stories. Together they demonstrate Jack son's remarkable range--from the hilarious to the truly horrible--and power as a storyteller.

A seemingly ordinary village participates in a yearly lottery to determine a sacrificial victim.

"The year is 2203, and the ruler of the Universe is chosen according to the random laws of a strange game under the control of Quizmaster Verrick. But when Ted Bentley, a research technician recently dismissed from his job, signs on to work for Verrick, he has no idea Leon Cartwright is about to become the new Quizmaster. Nor does he know that he's about to play an integral part in the plot to assassinate Cartwright so that Verrick can resume leadership of a universe as random as it appears."--BOOK JACKET.

This book is about the virtues and social justice of random distribution. This revised second edition includes a new introduction.

The Gift of the Magi is a treasured short story written by O. Henry. A young and very much in love couple can barely afford their one-room apartment, let alone the extra expense of getting Christmas presents for one another. But each is determined to show their love for the other in this traditional time of giving; each sells a thing they hold most dear in order to afford a present, with poignant and touching results that capture their love for one another.

These twelve dazzling stories from Chimamanda Ngozi Adichie — the Orange Broadband Prize–winning author of Half of a Yellow Sun — are her most intimate works to date. In these stories Adichie turns her penetrating eye to the ties that bind men and women, parents and children, Nigeria and the United States. In " A Private Experience, " a medical student hides from a violent riot with a poor Muslim woman, and the young mother at the centre of " Imitation " finds her comfortable life in Philadelphia threatened when she learns that her husband has moved his mistress into their Lagos home. Searing and profound, suffused with beauty, sorrow and longing, this collection is a resounding confirmation of Adichie ' s prodigious literary powers.
