This friendly guide offers concise but detailed demystifications of more than 85 aspects of ancient and modern Japan. It can be read in sequence, or just dipped into, depending on the moment's need. Explanations go much deeper than a typical travel guide and cover 1,500 years of history and culture, everything from geisha to gangsters, haiku to karaoke, the sun goddess to the shogunate . . . and anime to Zen.

The tea ceremony and the martial arts are intimately linked in the popular and historical imagination with Zen Buddhism, and Japanese culture. They are commonly interpreted as religio-aesthetic pursuits which express core spiritual values through bodily gesture and the creation of highly valued objects. Ideally, the experience of practising the Zen arts culminates in enlightenment. This book challenges that long-held view and proposes that the Zen arts should be understood as part of a literary and visual history of representing Japanese culture through the arts. Cox argues that these texts and images emerged fully as systems for representing the arts during the modern period, produced within Japan as a form of cultural nationalism and outside Japan as part of an orientalist discourse. Practitioners' experiences are in fact rarely referred to in terms of Zen or art, but instead are spatially and socially grounded. Combining anthropological description with historical criticism, Cox shows that the Zen arts are best understood in terms of a dynamic relationship between an aesthetic discourse on art and culture and the social and embodied experiences of those who participate in them.

Included in this volume are Suzuki's famous study "Enlightenment and Ignorance," a chapter on "Practical Methods of Zen Instruction," the essays "On Satori — The Revelation of a New Truth in Zen Buddhism" and "History of Zen Buddhism from Bodhidharma to Hui-Níng (Yeno)," and his commentary on "The Ten Cow-herding Pictures" which have long been used in Zen to illustrate the stages of spiritual progress.
